Message from the Vice Chancellor for Administrative Services

At Ozarks Technical Community College, we are committed to offering a personalized learning experience to prepare every student for life after graduation.

No matter what future endeavor a student is pursuing, it is important that we foster a campus community where everyone feels safe and welcome.

A safe campus community can only be achieved through the cooperation of everyone. The most important thing faculty, staff and students can do to keep our campus safe is to work together to be active and informed. This Annual Security Report serves to provide you with information, not only about relevant statistics, but also about the multitude of safety-related services available on campus, information on emergency messaging and emergency preparedness, and key policies and procedures.

For more information, please visit our Ozarks Tech Safety & Security Department web page at www.otc.edu/security. The site is an invaluable tool to help every member of our campus community join in our efforts to ensure that all our Ozarks Tech locations provide a safe and secure living, learning, and working environment.

Sincerely,

Rob Rector
Vice Chancellor for Administrative Services

Dear Campus Community Member,

I am pleased to introduce the 2024 Annual Security Report for the 2024 calendar year for the Ozarks Technical Community College. Ozarks Technical Community College is committed to providing the members of the campus community and visitors with the safest and most secure environment possible; however, even the most extensive initiatives cannot succeed without the awareness and cooperation of the community members who study and work on campus.

In 1990, Congress enacted the *Crime Awareness and Campus Security Act of 1990* (Title II of Public Law 101-542), which amended the *Higher Education Act of 1965* (HEA). This act required all post-secondary institutions participating in Title IV student financial aid programs to disclose campus crime statistics and security information. In 1998, the law was renamed the *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act* in memory of Jeanne Clery, a student who was slain in her college dorm room in 1986. It is generally referred to as the *Clery Act*.

On March 7, 2013, the *Violence Against Women Reauthorization Act of 2013 (VAWA)* (Public Law 113-14) was signed into law. *VAWA* includes amendments to the *Clery Act*. For additional information please visit: [VAWA](#).

The *Clery Act* requires higher education institutions to give timely warnings of crimes that represent a threat to the safety of students or employees, and to make public their campus security policies. It also requires that crime data be collected, reported, and disseminated to the campus community and submitted to the Department of Education. The intent of the Clery Act is to provide students and their families as higher education consumers, with accurate, complete, and timely information regarding safety on campus to make informed decisions. To learn more about the Clery Act, please visit: [The Clery Center](#).

In accordance with the Clery Act, Ozarks Technical Community College's Safety and Security Department has produced this "Annual Security Report", which contains the relevant information. In addition to campus crime statistics, this report also is a resource guide for campus safety services and crime prevention strategies. Inquiries about this report may be directed to Stacey Parton, College Director of Safety & Security, at 417-447-6911 or by electronic mail: partons@Otc.edu.

We hope this publication is beneficial, informative, and provides an opportunity for communication between the Ozarks Tech Safety and Security Department and the campus community.

Sincerely,

Stacey Parton

ANNUAL SECURITY REPORT

Ozarks Technical Community College is responsible for preparing an Annual Security Report and disclosing crime statistics in compliance with the *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act* (Clery Act). The Annual Security Report includes campus security policy statements and campus crime statistics for the previous three calendar years, so current and potential families, students, and employees can be knowledgeable about the safety of college campuses. The Annual Security Report is reviewed and updated annually as a cohesive document and submitted to the U.S. Department of Education by October 1 of each year. The statistical information gathered by the Department of Education is available to the public through their website.

The College Director of Safety & Security is the designated Campus Security Survey Administrator and is responsible for collecting and reporting the annual crime statistics. The Annual Security Report is prepared in cooperation with the Office of Student Affairs, the Dean of Students, Office of Equity and Compliance and the Title IX Coordinator, who provide updated information on the College's educational programs and policy disclosures. Crime statistics are compiled from requests made to local law enforcement agencies surrounding each campus, a review of Ozarks Tech Safety & Security Department Crime Logs and crime statistics reported to CSAs during the previous calendar year, January 1 through December 31.

An additional purpose of the Annual Security Report is to serve as a mechanism for the Safety & Security Department to fulfill its role of informing the campus community of crimes reported to the department, crime prevention tips, victim/witness services, reporting procedures, mass notification procedures, important contact information, and additional information from the department.

The Annual Security Report is available annually through publications, or computer networks to all enrolled students and current faculty and staff. The College Director of Safety & Security distributes an e-mail notification to all enrolled students, faculty, and staff, informing them of the appropriate website to access the Annual Security Report by October 1st of each year. Anyone, including prospective students and employees, may obtain a paper copy of this report by contacting any Ozarks Tech Safety & Security Department office, calling 417-447-6911, or visiting <http://www.otc.edu/security>.

CAMPUS LAW ENFORCEMENT AUTHORITY

Ozarks Tech campus and centers fall under the jurisdiction of the Ozarks Tech Safety & Security Department, which maintains jurisdiction over all property, including buildings owned, leased, or under the control of the college.

Ozarks Tech Safety & Security Department Officers have the authority to enforce College policies and procedures as outlined in the *Ozarks Tech Student Handbook and the Ozarks Tech Standards of Student Conduct Policy* (Appendix A). Ozarks Tech Safety & Security Department Officers have the authority to ask persons for identification to determine whether individuals have lawful business at Ozarks Tech. Officers have the authority to issue citations for parking and traffic violations. Officers may take reasonable lawful action to protect the college community and college property when the safety and welfare of the campus community may be in question.

Reports written by Ozarks Tech Safety & Security Department Officers are maintained by the Safety & Security Department for review and processing. All reports are reviewed for possible criminal or college policy violations. Reports may be forwarded to the Dean of Students for administering disciplinary actions and/or the Behavioral Intervention Team for students of concern and policy violations when necessary. Reports of greater serious matters may be referred to administration and law enforcement. Violations involving employees may be forwarded to the Director of Human Resources.

All reports are public records under Missouri state statute. Information such as names, addresses, etc., and personally identifiable information can be restricted to the extent permissible by law, while the facts of the incident occurring itself cannot be held in confidence. The department maintains statistical data from these reports for appropriate use and is available to the public upon request.

Ozarks Tech Safety & Security Department Officers do not possess arrest powers. Criminal incidents may be referred to the Laclede County Sheriff's Office who has law enforcement jurisdiction on the campus.

Ozarks Technical Community College does have a formal written "Memorandum of Understanding" (MOU) with the local law enforcement agency outlining the response or investigation of crimes. The Ozarks Tech Safety & Security Department maintains a close working relationship with the Laclede County Sheriff's Office, the Missouri State Highway Patrol, and local federal authorities.

All crime victims and witnesses are strongly encouraged to immediately report any crime to the Ozarks Tech Safety & Security Department at **417-447-6689** and the Laclede County Sheriff's Office at **911**. Prompt reporting will ensure timely warning notices and disclosures of crime statistics on campus.

WORKING RELATIONSHIP WITH LAW ENFORCEMENT AGENCIES

Ozarks Tech Safety & Security Department maintains a close working relationship with federal, state, county, and local law enforcement agencies to provide proactive security and law enforcement services to the Ozarks Tech campus community.

Ozarks Tech has partnered with the Laclede County Sheriff's to employ off-duty uniformed police officers at the Ozarks Tech Springfield Campus at varying hours. These officers have the same arrest powers and authority as on-duty Springfield Police officers.

The Springfield Police Department investigates all crimes committed on campus reported to them with the assistance of the Ozarks Tech Safety & Security Department. The prosecution of criminal offenses is handled by the Springfield Municipal Prosecuting Attorney's Office or the Greene County Prosecuting Attorney's Office.

In cases involving offenses by students, the Safety & Security Department may also refer the individual to the Dean of Students. Through coordination with local law enforcement agencies, criminal offenses by students at off-campus locations may be reported to the Dean of Students for any action or follow-up that may be required.

In cases involving offenses by employees, the Safety and Security Department may also refer the individual to Human Resources. Through coordination with local law enforcement agencies, criminal offenses by employees at off-campus locations may be reported to Human Resources for any action or follow-up that may be required.

ACCESS TO AND SECURITY OF CAMPUS FACILITIES

Ozarks Technical Community College is a public institution and is accessible to the public, students, faculty, staff, and visitors during normal business hours, except for restricted and high security areas. Except for essential personnel, services and designated individuals, the buildings are locked, and access is permitted only with the proper authorization and identification after normal building hours. During non-business hours, access to all college facilities is by key or key card, if issued, or by admittance via the Safety & Security Department personnel. Students must be accompanied by faculty or staff members when in a closed building after regular campus hours. Access to classrooms and offices for students is not permitted unless an instructor is present. All students, faculty and staff members are issued a college photo identification card that may be requested by any security officer, police officer, or college staff member to identify authorization for access.

The Ozarks Tech Safety & Security Department secures exterior doors of buildings (except those to which access is necessary) after normal business hours. Security Officers walk through buildings each evening to ensure office, classroom and lab doors are locked and to conduct other security related matters.

Individual building hours may vary at various times of the year. Emergencies may necessitate changes or alterations to any schedules. During periods of extended closure, the Safety & Security Department will only allow access to individuals with prior administrative approval to access the facilities.

The Safety and Security Department and the Facilities & Grounds Department are the only departments that may make changes, additions, or alterations to college approved or installed mechanical access systems (equipment or unlock schedules). An approved contractor may make approved changes, additions, or alterations to college approved or installed mechanical access systems (equipment or unlock schedules).

All outside building and maintenance contractors are required to check in with the Facilities & Grounds Department upon arriving and before working on campus. Access to buildings, offices and rooms by

outside contractors is handled by staff escort or through the issuance and assigning of keys based upon need with designed access limitations. For information about the access protocol for a specific building, please contact the Ozarks Tech Safety & Security Department at **417-447-6689**.

To protect the property, safety and welfare of students, faculty, and staff, all persons on property under the jurisdiction of the college behaving in a suspicious or threatening manner may be asked to identify themselves by a college official. Identification consists of giving his/her name, complete address, and stating truthfully his/her relationship to the college. Individuals may be asked to provide proof of identification, which is subject to verification.

If any person refuses or fails upon request to present valid identification and proof of his/her authorization to be in the building or on the campus, they will be asked to leave and may be removed from the building or campus. The Safety & Security Department is available to assist with this request.

Persons who behave in a suspicious or threatening manner or are involved in suspicious or threatening activities should be reported to the Safety & Security Department.

Security Considerations

Ozarks Technical Community College is committed to campus safety and security. Proper exterior lighting, landscaping, maintenance and building security are critical parts of that commitment.

The Safety & Security Department routinely inspects alarms, locks, camera placement, appropriate lighting, landscaping, and other safety concerns that may be found. Officers check the college's fire extinguishers, alarms, ADA doors, fire doors, emergency lighting, first aid kits, eye and body shower stations, fire blankets, AED devices, etc. They resolve some issues and report problems that require other departments or contracted technicians to resolve. Officers document their findings by completing a monthly checklist and reporting any problems they locate while checking the equipment.

The Facilities & Grounds Department maintains the College buildings and grounds with a concern for safety and security. Inspections of campus facilities are conducted regularly, and repairs are made as quickly as possible. All members of the campus community are encouraged to report safety hazards, such as broken locks and windows, doors not securing properly, to the Safety & Security Department, the Facilities & Grounds Department, or complete a work order through **otc.gofmx.com**, the Ozarks Tech online work order system.

REPORTING CRIMES

Reporting Crimes and Emergencies

Preventing campus crime is a shared responsibility between the College and the campus community. Public apathy is a criminal's greatest ally. Do not assume that someone else has reported criminal activity, or an emergency. Community members, students, faculty, staff, and guests are strongly encouraged to report all crimes and public safety related incidents in an accurate and timely manner to the Ozarks Technical Community College Safety & Security Department or local law enforcement. Prompt and accurate reporting of criminal offenses aids in providing a timely response and timely warning notices to the community when appropriate and assists in compiling accurate crime statistics.

To report an emergency that requires or may require police, fire, or EMS personnel to respond, please dial **911** from any campus phone or outside phone system.

To report a crime or an emergency on the Ozarks Technical Community College-Springfield campus call the Safety & Security Department from any campus phone at extension **6911**, or from an outside phone system, **417-447-6689**. Ozarks Tech Safety & Security Department Officers are available 24 hours a day.

Crimes and incidents may be reported in person at the Ozarks Tech Safety & Security Department at the Lebanon Education Center, located in Casey Hall, Room# 124, or to any Ozarks Tech Safety & Security officer on campus.

Persons reporting criminal incidents should provide as much information as available. If possible, this should include the location, nature of injuries, the description of possible criminals, and briefly what happened. If you are unsure what you witnessed or experienced is a crime, please contact the Ozarks Tech Safety & Security Department office, and they will assist you with your situation. Sexually based offenses and discrimination incidents may also be reported to the Title IX Coordinator.

If you observe a violent criminal act or emergency, call 911 immediately.

When dialing 911, the initial call will go to the Springfield/Greene County Emergency 911 Emergency Communications Center. They dispatch the Laclede County Sheriff's Office and Fire Departments. Please contact Ozarks Tech Safety & Security as quickly as you can after calling 911, so we can render assistance as well. If medical assistance is needed, you will be transferred immediately to the appropriate hospital EMS ambulance dispatch.

Response to Reports

The Ozarks Tech Safety & Security Department responds to all reports of suspicious or criminal acts and emergencies. The Springfield Police Department is the primary law enforcement agency for reporting and investigating all crimes that occur at the Springfield Campus.

Ozarks Tech Safety & Security Department Officers will respond as quickly as possible to any request for assistance, whether it is an emergency or not. Response time is based on staffing, current activity load and the urgency of the call. Crimes in progress, traffic accidents and medical emergencies have a higher priority than other types of calls. A Safety & Security Officer will meet with you to gather information and prepare an official report. Based on the circumstances, the officer may contact the Laclede County Sheriff's Office for assistance. It is the victim's decision regarding filing a report with the Laclede County Sheriff's Office. If you file a report with the Laclede County Sheriff's Office your report may be forwarded to the Investigation Unit, where a detective will review the report and evidence (if any) to attempt to determine the facts and perpetrator(s) of the crime.

In all instances of criminal activity, Ozarks Tech Safety & Security Department works closely with local law enforcement agencies to determine the exact nature of the crime for the purposes of developing a viable case to be forwarded to the Municipal Prosecutor's Office or the County Prosecutor's Office for prosecution. All Safety & Security Department incident reports involving students are referred to Student Affairs for review and potential disciplinary action through the campus disciplinary process. Statistics for cases forwarded to Student Affairs or Human Resources that are offenses pursuant to the Clery Act will appear in this report.

Campus Security Authorities (CSA)

Although the College strongly encourages campus community members to immediately report all crimes and other emergencies directly to the Ozarks Tech Safety & Security Department at 417-447-6989 or 911, the Safety & Security Department also recognizes that some may prefer to report to other individuals or

College offices.

The Clery Act recognizes certain college officials and offices as “Campus Security Authorities” (CSAs). Campus Security Authorities are defined as follows:

1. A campus security department or a campus police department of an institution
2. Any individual or individuals who have responsibility for campus security but who do not constitute a campus police department or a campus security department under paragraph (1) such as an individual who is responsible for monitoring entrance into institutional property
3. Any individual or organization specified in an institution’s statement of campus security policy as an individual or organization to which students and employees should report criminal offenses
4. An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings. If such an official is a pastoral or professional counselor as defined below, the official is not considered a campus security authority when acting as a pastoral or professional counselor.

Campus Security Authorities serve as a contact for students whom they can report crimes to; look to for guidance if they have been a victim of a crime; or ask for advice as to whether they should report an incident. If an individual chooses to report a crime, CSA’s can assist an individual in contacting the Ozarks Tech Safety & Security Department, or the appropriate law enforcement agency. Campus Security Authorities are not responsible for convincing victims of a crime to contact the Ozarks Tech Safety & Security Department or law enforcement if victims do not want them contacted.

Campus Security Authorities are not responsible for taking any actions in regard to conducting an

investigation, contacting a suspected perpetrator of a crime, or determining whether or not a crime took place.

The CSA's submit crime information to the Ozarks Tech Safety & Security Department for inclusion in the crime statistics as required by law under the Clery Act for all institutions of higher education that receive federal financial aid. The statistical information collected for this report will not contain any names or specific locations to maintain the confidentiality of a victim.

Pastoral and Professional Counselors Reporting Policy

Ozarks Technical Community College does not employ campus pastoral counselors.

Campus professional counselors, when employed as a counselor and acting within the scope of their employment at the Ozarks Technical Community College, are not considered to be CSA's and are not required to report crimes for inclusion in the annual disclosure of crime statistics. However, campus professional counselors are encouraged; when they deem it appropriate to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion in the annual crime statistics.

Pastoral Counselor: A person who is associated with a religious order or denomination, recognized by that religious order or denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a pastoral counselor.

Professional Counselor: A person whose official responsibilities include providing mental health counseling to members of the institution's community and who is functioning within the scope of the counselor's license or certification.

Voluntary Confidential Reporting System

Ozarks Technical Community College does not have a voluntary confidential reporting system for annual crime statistics. Confidential reporting often does not allow for the prosecution of suspects of criminal activity and crimes are not reported promptly.

- Timely notification about certain types of crime may affect the safety of others. These crimes include criminal homicide, sex offenses, robbery, aggravated assault, burglary, motor vehicle theft and arson.
- When you make a report, you assist the Ozarks Tech Safety & Security Department in maintaining accurate records of the incidence of crime on campus. This information helps to keep the campus safe by providing the most accurate information on criminal activity to members of the campus community.

Monitoring of Crimes at Off-Campus Activities

Ozarks Technical Community College does not monitor any off-campus activities by students. There are no officially recognized student organizations with off-campus locations.

Criminal activity by students off-campus is not officially reported to the college on a regular basis. When an Ozarks Tech student is involved in an off-campus criminal offense, the Ozarks Tech Safety & Security Department may assist with the investigation with local, state, or federal law enforcement authorities. Reports of such criminal activity may be shared by/with these agencies.

Several law enforcement agencies routinely work and communicate with the Ozarks Tech Safety & Security Department regarding any serious incidents occurring on-campus or in the immediate area surrounding the campus. While these law enforcement agencies have primary jurisdiction on and off

campus, the Ozarks Tech Safety & Security Department can and may respond to student-related incidents that occur near Ozarks Tech Campuses depending upon the circumstances.

EMERGENCY RESPONSE AND EVACUATION

Ozarks Technical Community College community members are encouraged to notify the Safety & Security Department of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate threat to the health and safety of students or employees occurring on campus.

Ozarks Technical Community College has developed a comprehensive Emergency Response Plan that includes procedures to be followed in all types of emergencies. The Emergency Response Plan is designed to assist Ozarks Tech employees to respond appropriately when emergency conditions exist. Emergency guides are posted in each facility giving quick reference procedures for emergency situations; the location of fire extinguishers; first aid kits as well as maps providing directions to evacuate the building and safer locations within the building to seek shelter.

To ensure emergency plans are appropriate, Ozarks Tech conducts emergency response exercises annually. These tests are designed to assess and evaluate the emergency plans and capabilities of the college. The Ozarks Tech Safety & Security Department documents each test of the emergency response procedures to include a description of the exercise, date, time and whether it was announced or unannounced.

How to Report an Emergency

In the event you observe a significant emergency or dangerous situation that poses an immediate threat to the health and safety of the campus community at any Ozarks Tech Campus location the situation should be reported immediately by calling **911** and the Ozarks Tech Safety & Security Department at **417-447-6689**.

Response Procedures for an Emergency or Dangerous Situation

The Ozarks Tech Safety & Security Department and the College will coordinate with other first responders, which may include the Laclede County Sheriff's, the Lebanon Fire Department, and others. Depending on the nature and magnitude of the incident, other local, state, and federal agencies may be called upon for assistance.

When an emergency or dangerous situation occurs or is imminent, it shall be the responsibility of the Ozarks Tech Safety & Security Department to set up an appropriate Emergency Operations Center as directed by the College Chancellor or his/her designee. Additionally, a Public Information Center will also be established to aid in the dissemination of information to students, faculty, staff, and media outlets.

Confirming a Significant Emergency or Dangerous Situation

The Safety & Security Department will respond and investigate all reported incidents to determine if the incident poses a significant emergency or dangerous situation to the College community; however, personnel from other campus offices, such as Facilities & Grounds, Environmental Services, etc., may be involved in the confirmation process, depending on the nature of the potential threat. The Safety & Security Department will also determine if additional resources are needed and will summon them, as necessary.

Ozarks Tech Safety & Security Department personnel will relay a situation update to the Ozarks Tech Operations Center where the incident will be confirmed as a threat and implement procedures to minimize

the impact of the incident to the campus community.

The Ozarks Tech Operations Center is the physical location at which the coordination of information and resources to support campus incident management takes place. The Ozarks Tech Operations Center is the Emergency Operations Center where college resources can be deployed in an emergency or dangerous situation. Operations Center personnel are responsible for pushing information to and pulling information from the incident site to local responders and Ozarks Tech administration. Furthermore, if a large-scale situation exceeds, or is likely to exceed, available campus capabilities and resources, the Ozarks Tech Operations Center will contact the City of Springfield and Greene County for additional resources.

Emergency Notification of the Campus

The decision concerning whether to issue a notification will be made on a case-by-case basis using the following criteria:

- Nature of the situation
- Continuing danger to the campus community
- Possible risk of compromising law enforcement efforts

The college, after receiving confirmation from an authorized official, will, without delay, and considering the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The College Director of Safety & Security and the Chief Marketing and Communications Officer, or designees, may collaborate to determine the content of the notification and will disseminate the emergency notification information to the campus community, or to the appropriate segment of the community, if the threat is limited to a particular building or segment of the population.

Ozarks Tech utilizes the Ozarks Tech Campus Alert emergency notification system. Enrollment in the Ozarks Tech Campus Alert system is automatic for all Ozarks Tech students and employees each semester. To ensure the emergency notification system is functioning appropriately, Ozarks Tech conducts a test of Ozarks Tech Campus Alert system at least once each semester.

Notification Methods

The following methods may be used to notify the campus community of various emergencies that may affect the campus community:

- Ozarks Tech Campus Alert System
- Campus-wide phone notifications
- Email
- Text message
- Official Ozarks Tech website
- Social media
- Press release
- Local media
- Targeted communication – posters, letters, group meetings, etc.

Procedures for Evacuation in Emergency or Dangerous Situations

In the event of an emergency or dangerous situation, the Safety & Security Department or the Operations Center will direct students, faculty, staff, and guests to evacuate a building, several buildings, a portion of

the campus, or the entire campus. The campus community will be asked to follow building and campus evacuation protocols and to obey directions from Ozarks Tech and on-scene emergency responders.

Certain events, like hazardous materials release, may require the Ozarks Tech community and the public to shelter-in-place to prevent exposure to harmful elements.

Annual Notification and Testing

Ozarks Technical Community College will conduct at least two tests/drills of the Emergency Response-Ozarks Tech Campus Alert System per calendar year. These exercises may include tabletop exercises or functional exercises. These tests may be announced or unannounced, depending on the type of exercise. The Safety & Security Department will document each test of its emergency response procedures to include: a description of the exercise, date, time and whether it was announced or unannounced.

Campus community members are encouraged to review the college's emergency response plan and evacuation procedures, which are available on the Ozarks Tech website at [Ozarks Technical Community College Emergency Response Plan](#) or in hard copy from the Ozarks Tech Safety & Security Department.

Emergency Response Plans that can be reviewed upon request:

- Communications Protocol
- Death on Campus
- Medical Emergencies Policies
- Environmental Emergency Procedures
- Suspicious Mail Procedures
- Workplace Violence Procedures
- Natural Disaster Procedures
- Training & Emergency Drills
- Pandemic Event
- Protests, Public Demonstrations or Political Situations
- External Threat Procedures
- Utility Disruption & Outage Immediate Action Plan

TIMELY WARNINGS

The Ozarks Tech Safety & Security Department provides timely warnings about reported crimes to the campus community that may pose a serious or continuing threat. Safety & Security Department personnel are responsible for initiating timely warnings.

Initiating Timely Warnings

The College Director of Safety & Security or designee, in conjunction with various campus administrators will distribute timely warning announcements when there appears to be a threat to the safety and security of persons on campus for the following crimes:

- Aggravated assault
- Arson
- Burglary
- Negligent manslaughter

- Motor vehicle theft
- Murder/non-negligent manslaughter
- Robbery
- Sexual offenses
- Domestic violence, dating violence, and stalking
- Any other crime in which the victim was chosen based on race, gender, gender identity, religion, disability, sexual orientation, ethnicity, or national origin.

Decisions concerning whether to issue a timely warning will be made on a case-by-case basis using the following criteria:

- Nature of the crime
- Continuing danger to the campus community
- Possible risk of compromising law enforcement efforts

Timely Warning Content

The timely warning contains sufficient information about the nature of the threat to allow members of the campus community to take protective action:

- A brief statement of the incident
- Possible connection to previous incidents if applicable
- Date, time, and location of the warning
- Description of the suspect, if available
- Risk reduction and safety tips
- Other relevant and essential information

Timely warnings will not include the names or identifying information about victims involved in the incident. In some cases, the Safety & Security Department may need to keep some facts confidential to avoid compromising an ongoing investigation.

Timely Warning Notification Methods

The following methods may be used to notify the campus community of various emergencies that may affect the campus community:

- Ozarks Tech Campus Alert System
- Campus-wide phone notifications
- Email
- Text message
- Official Ozarks Tech website
- Social media
- Press release
- Local media
- Targeted communication – posters, letters, group meetings, etc.

The Safety & Security Department reviews all reports taken/received by the department and/or information provided to the department by Campus Security Authorities or local law enforcement agencies in a timely manner to determine any offenses that are subject to disclosure in the Annual Security Report and represent a serious or continuing threat to the campus community. The college may distribute safety alerts to share

safety and security information that the college desires to communicate to the campus community but does not meet the criteria for distribution of a timely warning notice.

Anyone with information warranting a timely warning should report the circumstances to the Safety & Security Department, by phone **417-447-6689**, or in person at the Safety & Security Department office.

EMERGENCY PLAN FOR SHELTERING IN-PLACE

In the event hazardous materials such as chemical, biological, or radiological materials are released into the atmosphere, government emergency preparedness agencies may request Ozarks Tech to shelter-in-place. This is a precaution to keep the campus community safe while remaining indoors.

Shelter-in-place means selecting interior rooms and hallways with no or few windows and taking refuge there. Rooms with mechanical equipment like ventilation blowers or pipes should not be used, because this equipment may not be able to be sealed from the outdoors. If there is a possibility of an outside explosion, rooms with windows should not be used. Interior rooms above ground level are best for shelter, because certain contaminants may be heavier than air; these would settle at ground level and could spread into ground level floors. Emergency information will be provided by local, state, or federal authorities on television and radio stations.

If possible, there should be telephone or email access in every room used for shelter. This will allow people to contact their emergency contact person. Staff and students need to have an emergency contact person and know how to contact them at any time. It is best to have a local contact and someone not in the immediate area. Someone not living in the immediate area may not be affected by the same event faced locally. In the event of an emergency the contact person can let others know you are safe and any information you want to pass on to family and friends.

The person in charge of each building should have someone print the names of everyone in that building. This information should be provided to the Chief Marketing and Communications Officer so family members can be informed of staff and students' status if necessary.

In the event of an emergency, it is best to use hard-wired telephones; cellular telephone equipment may become overwhelmed with numerous people trying to make telephone calls to family members. E-mail may be used if electrical power is available. Ozarks Tech phones operate via the internet and require power and internet connectivity to function.

All exterior doors on all buildings where people are seeking shelter should be locked. Ventilation systems should be shut off to prevent contamination from the outside. People should remain in the shelter areas until told to leave by proper authority. Radios and televisions should be kept on so everyone can stay as informed as possible.

Remember that instructions to shelter-in-place are usually provided for durations of a few hours, not days or weeks. Local authorities on the scene are the best source of information for your situation. Following instructions during and after emergencies regarding shelter, food, water, and cleanup methods is your safest choice.

A recording should be on telephone number 417-447-7500 stating that Ozarks Tech is closed, and that staff and students are remaining on campus in their work or class buildings until proper authorities advise it is safe to leave.

EVACUATION OF MOBILITY IMPAIRED INDIVIDUALS

Students

Students who are mobility impaired have an important responsibility to assist with arrangements for their own safety, by contacting Disability Support Services to develop a response plan. Informing their instructors of their needs in case of an emergency and what assistance they may require in case of an emergency. Students should know the location of fire exits in buildings where they have classes. Building emergency maps are posted in public areas, classrooms, and labs.

Faculty

Faculty members with mobility impaired students should discuss with the student what assistance they will require in case of an emergency. Faculty should ask for volunteers from the class to assist mobility impaired students in the event of an emergency. In the event there are no volunteers, the instructor should notify the Safety & Security Department. The College Director of Safety & Security, in consultation with Disability Support Services, will notify the faculty and students of the arrangements made in case of an emergency. Faculty members should know the location of fire exits in their building. Building emergency maps are posted in public areas and in classrooms and labs.

Staff

Staff who are mobility impaired have an important responsibility to assist with arrangements for their own safety. Staff should inform their supervisor and co-workers of their needs in the event of an emergency and what assistance they would require in case of an emergency. They should know the locations of elevators, stairways and fire exits in their buildings.

Evacuation Procedures

Two volunteers should assist each mobility impaired student or staff member out of the building and to safety in the event of an emergency. The person with the impairment will know best what assistance they need and to what extent they are able to assist the volunteers with their evacuation.

In the event of a fire and the mobility impaired person is not on the ground floor, elevators may be used to evacuate them, if there is a fire exit separating the elevator from the fire danger area. All major buildings on campus have fire exits. If an elevator is not available, the impaired person should be taken to a stairway. The volunteers can use an Evac Chair or Med-Sled to safely lower the mobility impaired person down the stairwell to safety. The volunteers and the mobility impaired person should allow people on foot to use the stairway first, so not to impede the flow of traffic or become injured by other people evacuating the building. Once the stairway is clear, the mobility impaired person and one volunteer should remain at the top of the staircase and inside the closed fire doors if they cannot be evacuated. This will ensure the volunteer and mobility impaired people are in plain view for fire rescue teams. With the fire doors closed, even if the ventilation system does not work, there should be a sufficient supply of oxygen until rescued. The other volunteer should exit the building and notify emergency personnel of the location of the mobility impaired person and volunteer.

There may be a case where the best action is for the impaired person and volunteer to remain in the classroom and wait for rescue. If this is the case, the instructor should notify the Safety & Security Department or emergency personnel of the location and names of people remaining in the classroom or office awaiting rescue.

As a last resort, the volunteers may need to carry the mobility impaired person down the stairway to safety. This method should be used only as a last resort because of the possibility of injury to the impaired person and volunteers. The impaired person, if possible, should make the decision to be carried to safety or to wait for fire rescue.

DAILY CRIME LOG

The Ozarks Tech Safety & Security Department maintains a Daily Crime Log of crimes reported to the department. The crime log records the date the crime reported, date crime occurred, nature of the crime and where the crime occurred; on campus building or property, non-campus building or property, on public property, or within the established jurisdiction of the campus and the disposition, if known. The Daily Crime Log may include reports made to law enforcement agencies, if known. All entries are recorded within two business days after the incident is reported to the department.

The Ozarks Tech Safety & Security Department prepares this report in a timely manner, so it is available to the campus community and public. The Daily Crime Log is open for public inspection at the Safety & Security Department office at any Ozarks Tech Campus during normal business hours.

SECURITY AWARENESS & PROGRAMS

The Ozarks Tech Safety & Security Department is committed to protecting the safety and security of the entire campus community. All students, faculty, and staff who feel uncomfortable walking during the hours of darkness may contact the department and request a campus security escort. Security escorts during daylight hours may be provided when documented safety concerns exist. If you wish to request a Security escort, please contact the Ozarks Tech Safety & Security Department at **417-447-6698**.

Security surveys are conducted in areas that are identified as problematic. These surveys examine security issues such as alarms, locks, camera placement, landscaping, appropriate lighting, and other safety concerns. Any noted problems are reported to the Ozarks Tech Facilities & Grounds Department, or an approved contractor, so repairs or improvements can be made.

Periodically during the academic year, the Safety & Security Department and/or other college organizations and departments, present crime prevention awareness sessions on sexual assault, drug and alcohol abuse, theft, armed intruder response, and personal safety topics to students, faculty and staff. Presentations are also provided during new employee orientation. Student Services also distributes a variety of brochures about the harmful effects of drugs, alcohol, and tobacco.

Ozarks Tech Victim Advocate offers personal safety, sexual assault education and information programs to Ozarks Tech students and employees upon request.

A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others. In addition to seminars, information is disseminated to students and employees through crime prevention awareness flyers, security alert posters and displays. When time is of the essence, information is released to the college campus community through security alerts posted prominently throughout campus, through computer memos sent over the college electronic mail system and a voice mail broadcasting system.

Programs provided by Ozarks Tech / Safety and Security Department include:

- **Faculty and Staff Orientations** - A presentation on crime, personal safety and security offered to new full-time faculty and staff. Annually
- **Adjunct Orientation by the Safety and Security Department** - Prior to each fall semester, the Safety and Security Department briefs adjuncts on crime prevention, emergency management, and various policies that affect them and their students. Annually
- **Safety and Security Escort Program** - By request, the Safety and Security Department will escort any student, faculty, or staff to and from their vehicle while on campus. Daily
- **Drug Information Seminars** - National Substance Abuse Awareness Week. Annually

Programs presented upon request:

- **Personal Safety Training** - The Safety and Security Department provides basic overview training to students, faculty and staff on practices designed to mitigate chances of being a victim of crime.
- **Active Shooter / Armed Intruder Training**

CRIME PREVENTION PROGRAMS

Crime prevention demands constant interaction and outreach to the campus community. The Ozarks Tech Safety & Security Department sponsors crime prevention programs to stress community awareness and interaction. The department distributes materials and conducts presentations upon request to familiarize students, faculty, and staff with their shared responsibility in reducing criminal opportunities. A common theme of the programs is to encourage students to be aware of their responsibility for their own safety and the safety of others. Such programs range from crime prevention presentations to on-site inspections and may be requested by contacting the Ozarks Tech Safety & Security Department at **417-447-6698**.

Some crime prevention tips that are provided on a routine basis are as follows:

CRIME PREVENTION TIPS

On-Campus

- Plan the safest route to your destination; choose well-lit, busy pathways and streets.
- Familiarize yourself with the layout of the campus. Survey the campus while classes are in session and after dark to see that academic buildings, walkways, facilities, and parking lots are adequately secured and well-lit.
- After dark park near the building where you will be working or attending classes.
- Share your class schedule with your parents and trusted friends and give them your telephone number.
- Use the Safety & Security Department's Campus Safety Escort Program if needed.
- Stay alert to your surroundings and the people around you.
- If you are being followed, change direction, and if you continue to be followed call Safety and Security at 417-447-6698 from your cell phone. Note the street or parking lot you are on (lot letter on light poles) or near and direction you are traveling, and go to the nearest building, and request that someone call the police. Note the description of the person following you.
- Carry your purse close to your body and keep a firm grip on it; carry your wallet in an inside coat pocket or your front pant pocket.
- Keep your keys separate from your purse or backpack.
- Do not leave your keys, laptop, or personal belongings in public areas, on your desk or in your office unattended.

- Report lost or stolen items immediately to the Safety & Security Department.
- Do not overload yourself with bags or packages and avoid wearing shoes that restrict your movements.
- If a motorist stops and asks for directions, keep your distance from the vehicle.
- Always lock your door, even if you just go down the hall.
- Do not let unknown individuals “tailgate” you into secure areas by following you through a door; ask who they are visiting and offer to call the Safety & Security Department.
- Do not prop any locked exterior doors open to allow unescorted visitors into the buildings.
- Report any malfunctioning locks, doors, or windows to the Safety & Security Department.
- Report any suspicious persons or activities on or near the campus to the Safety & Security Department, local police department or sheriff’s office.
- Secure your valuables and engrave expensive items with identifying information.
- Do not leave your identification, keys, wallets, checkbooks, or other valuables in your vehicle or on your desk in sight.

Motor vehicle safety

- Carry a cell phone.
- Never let your vehicle’s fuel level get below ¼ of a tank.
- Service your vehicle regularly to avoid breakdowns.
- Drive on well-traveled streets and keep your car in gear while it is stopped. Allow at least one car length space between your car and the car in front of you so that you can escape should someone try to get into your car.
- Always be aware of your surroundings and check your rear-view mirror often.
- Keep doors locked and windows rolled up while in the vehicle.
- If you get lost, do not pull over until you find a well-lit public area, and then call law enforcement.
- If you suspect you are being followed, drive to a well-lit public area and call law enforcement.
- Never pick up hitchhikers.
- Beware of people who yell, honk, and point at your car as if something is wrong; if your car breaks down, stay inside, and lock the doors. If anyone approaches to help, crack the window, and ask them to call law enforcement. Ask uniformed people to show identification.
- Beware of people who may bump your vehicle from behind; if you think you were bumped intentionally, signal the other person to follow you to the nearest local law enforcement office.
- If a person with a weapon confronts you and wants your vehicle, give it up. No car is worth being injured or losing your life over.
- Park in well-lit areas where your vehicle is visible; avoid parking next to vans or trucks that reduce visibility.
- Keep all items out of sight, especially valuables, place items in the trunk.
- Keep your vehicle locked when unoccupied.
- Have your key ready when you approach your car. Before getting in, check inside and under your car to make sure no one is hiding.
- Do not become distracted by a cell phone, CD players, GPS system, etc.
- If you are followed, either drive to the nearest local law enforcement office or call 911 on your cell phone.

Bicycle safety & protection

- Obey all traffic laws; you must stop at intersections; pedestrians have the right of way.
- Pay attention to your surroundings; warn pedestrians when you are passing them.
- Take extra care when passing parking lot exits or driving through parking lots.
- Give proper hand signals when turning or stopping.
- Secure your bicycle with a heavy-duty u-lock or chain. When possible, lock at least your front wheel and frame to a bike rack.
- Do not park your bicycle in a doorway, on stairs, or block any handicapped access. Use a bike rack.
- Take note of your bicycle's serial number and record it in case you need it in the future.

Cyber security

- Never give your password to anyone.
- Change your password frequently. Use random letters and numbers for passwords.
- Do not allow others access to your email account.
- Do not put personal information or photos on your web page and do not give personal information that can identify where you live to social networking sites.

- Do not download files sent to you by strangers or click on hyperlinks from people you do not know.
- Make certain that all your personal information is deleted from your computer prior to disposing of it.
- Computer phishing is a crime. Phishers attempt to fraudulently acquire credit card details and other sensitive personal data via bogus emails or pop-up windows. It may look like a legitimate email from a legitimate institution but beware of unsolicited requests for information.
- Financial or payment institutions will never request that you send them personal sensitive data via email or pop-up windows.
- If you receive a suspicious looking email from any bank, lending, or payment institution, it is best to delete and not respond. If you have an account with the entity mentioned in the email, call your legitimate institution using the number on your physical bill or via the telephone book or through telephone information.
- Do not call the number that may be listed in the bogus email and do not click on any link listed in the bogus email.
- If you receive unsolicited texts asking you to respond to collect owed money, receive unsolicited discounts, or asking you for personal identifying information, do not respond to the texts, delete them immediately.

Protecting yourself from identity theft

- Be aware of people loitering around ATMs.
- Prepare your ATM transaction ahead of time. Do not spend much time at the machine.
- Do not give out your Personal Identification Number (PIN) to anyone.
- Destroy private records and statements. Destroy credit card statements, solicitations and other

documents that contain confidential information. Shred this paperwork using a "crosscut" shredder so thieves cannot find your data when they rummage through your garbage. Also, do not leave a paper trail; never leave ATM, credit card or gas station receipts behind.

- Secure your mail. Never mail outgoing bill payments and checks from an unsecured mailbox, especially at home. Mail can be stolen from your mailbox and the payee's name changed. Mail bill payments from the post office or another secure location.
- Safeguard your Social Security number.
- Know with whom you are dealing. Whenever you are contacted, either by phone or email, by individuals identifying themselves as banks, credit card or e-commerce companies and asked for private identity or financial information, do not respond.
- Take your name off marketers' call lists.
- Guard your personal information.
- Monitor your credit report.
- Keep track of your billing dates/cycles and follow up with creditors if you do not receive bills/statements on time.

If your identity is stolen

- Contact the fraud departments of each of the three major credit bureaus. Inform them you are an identity theft victim. Request a "fraud alert" be placed in your file, along with a victim's statement asking that creditors call you before opening any new accounts or changing your existing accounts.

Safety at work

- If you are working late, let someone know where you are and how long you expect to be; plan in advance to have a co-worker stay with you.
- Park near the building you will be working in when working after dark.
- Keep your purse or wallet locked in a drawer or filing cabinet at all times.
- Politely ask strangers whom they are visiting and offer to help find the person; if you are suspicious of the person, contact the Safety & Security Department or local law enforcement.
- Check the identification of any maintenance or repair personnel.
- Keep emergency phone numbers posted near your phone.

DRUG AND ALCOHOL PREVENTION POLICY

The possession, purchase, sale, consumption or furnishing of alcoholic or intoxicating beverages on college property or attending classes under the influence is prohibited by *Ozarks Tech Drug and Alcohol Prevention Policy* (Appendix B), Springfield Municipal Code and Missouri State Statute. The enforcement of alcohol law violations on campus is the responsibility of the Springfield Police Department, in cooperation with the Ozarks Tech Safety & Security Department. Violators are subject to college disciplinary action, criminal prosecution, fine and/or imprisonment.

Ozarks Technical Community College has been designated as a drug-free workplace. The unlawful possession, sale, manufacture, distribution, or illegal use of any controlled substance is prohibited by Ozarks Tech policy and is illegal under local ordinances, Missouri state law, and federal laws. These laws are enforced by the Springfield Police Department and violators are subject to college disciplinary action, criminal prosecution, fine and/or imprisonment.

College Sanctions for Violations of Alcoholic Beverages and Illegal Drugs Policy

Students who violate the College's Standard of Student Conduct pertaining to alcohol and illicit drugs will be subject to disciplinary action depending on the seriousness of the offense. Sanctions may range from an informal reprimand to dismissal from the College. Employees who violate this policy will be subject

to disciplinary action ranging from an informal reprimand to termination of employment depending upon the seriousness of the offense. If the conduct resulting in discipline also involves a violation of municipal, state, or federal law then the college may refer the matter to the appropriate authorities for prosecution.

Medical Marijuana Statement

In 2018, Missouri voters approved an amendment to the Missouri Constitution (Amendment 2), which, under certain circumstances, authorizes the possession and use of marijuana for medical purposes by people with debilitating medical conditions who obtain a written certification from a physician. In 2022, Missouri voters approved an amendment to the Missouri Constitution (Amendment 3), which authorized the possession and use of marijuana and products that contain THC for recreational purposes. Notwithstanding the passage of Amendment 2 and Amendment 3, because of the Colleges obligations under federal law, marijuana, including medical marijuana, will continue to be banned on all Ozarks Tech campuses and centers. Additionally, healthcare providers on campus, in accordance with federal law as well as college policies and regulations, will not prescribe medical marijuana.

Under the Federal Drug Free Workplace Act of 1988, and Drug Free Schools and Communities Act of 1989, “No institution of higher education shall be eligible to receive funds or any other form of financial assistance under any federal program, including participation in any federally funded or guaranteed student loan program, unless it has adopted and has implemented a program to prevent the use of illicit drugs and abuse of alcohol by students and employees.” The Controlled Substances Act prohibits the use, manufacture, distribution, dispensing, or possession of marijuana; it also classifies marijuana as a controlled substance and makes no exception for medical use.

Missouri’s Amendment 2 and Amendment 3 does not change the fact that marijuana and products that contain THC remains illegal under federal law; the college will therefore continue to enforce its current policies prohibiting the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance as defined in federal law, including medical marijuana, on its property or as part of any of its activities.

In summary, Missouri’s Amendment 2 and Amendment 3 only made possession and use of marijuana or products containing THC for medicinal or recreational use legal under Missouri law. It did not legalize overall marijuana possession and use. Marijuana and products containing THC remains a controlled substance under federal law and possession and use of marijuana and products containing THC remains illegal under federal law, regardless of whether a person has a prescription for use of marijuana or THC products or is otherwise complying with Amendment 2 or Amendment 3.

To remain eligible to receive federal grant funding and participate in federally funded student financial aid, the college must require that students, faculty, and staff do not unlawfully possess or use marijuana or products that contain THC on campus or as part of any of its activities. As a result, the possession or use of marijuana or products that contain THC on campus, even in accordance with the exceptions granted by Amendment 2 or Amendment 3, is a violation of federal law and the College’s current policies and regulations. Employees and students who violate these policies will continue to be subject to disciplinary action.

Alcohol and Drug Abuse Health Risks

Serious health risks are associated with the use of illicit drugs and alcohol. Some but not all the risks are listed below:

Alcohol and other depressants: Consumption of alcohol and other depressants causes a number of marked changes in behavior. Even low doses significantly impair judgment and coordination required for safety and care. Use of alcohol and depressants can lead to addiction and accidents because of impaired ability and judgment.

Marijuana: Use of marijuana can lead to panic reactions, impaired short-term memory, increased risk of lung cancer and emphysema, particularly in cigarette smokers, and impairment of driving ability.

Cocaine: Addiction, heart attack, seizures, lung damage, severe depression, paranoia, and psychosis. Similar risks are associated with other stimulants, such as speed and uppers.

Hallucinogens: Unpredictable behavior, emotional instability, violent behavior, and organic brain damage in heavy users, convulsions, and coma.

Narcotics (Heroin, Morphine, Codeine, etc.): Addiction, accidental overdose, risk of hepatitis and AIDS from contaminated needles.

Inhalants (Gas, aerosols, glue, etc.): Loss of consciousness, suffocation, damage to the brain and central nervous system, sudden death, nausea and vomiting, nosebleeds, and impaired judgment.

Drug and Alcohol Program Biennial Review

Ozarks Technical Community College conducts biennial review of its alcohol and drug abuse awareness program to determine its effectiveness, make changes where necessary, and ensure it is consistently enforced. Review reports can be found at <https://students.otc.edu/deanofstudents/drug-and-alcohol-abuse-prevention/>

PREVENTING AND RESPONDING TO SEXUAL HARASSMENT

Ozarks Technical Community College seeks to create and maintain a safe environment in which all members of the college community – students, employees, visitors and other third parties – can learn and work free from sexual discrimination and violence. Acts of discrimination, harassment, and violence on the basis of sex are prohibited. (*Sexual Harassment and Grievance Procedure* Appendix C)

Crimes of sexual assault, dating violence, domestic violence and stalking as defined for purposes of the *Clery Act* are also prohibited. Offenders may be subject to appropriate campus adjudication processes, disciplinary action, and/or criminal proceedings. The college utilizes procedures that provide prompt, fair, and impartial investigation and resolution in cases involving these crimes. These procedures are conducted by officials who receive specific annual training.

In these situations, the college is committed to providing crisis intervention measures for students, faculty, and staff, as well as appropriate administrative response for the complainant and respondent; referring individuals to criminal authorities; and educating and promoting discussion on interpersonal abuse and violence issues. The college's process does not preclude adjudication under state law.

Retaliation by its officers, employees, students, or agents against a person who exercises his or her rights or responsibilities under any provision of federal or state law, including Title IX and the Violence Against Women Reauthorization Act ([VAWA](#)), and this policy are prohibited.

This policy applies to all college employees, students, applicants for employment, customers, third-party contractors, and all other persons that participate in the college's educational programs and activities,

including third-party visitors on campus. The college prohibits sex discrimination, sexual harassment, and sexual violence even when the complainant and alleged perpetrator are members of the same sex, and it applies regardless of national origin, immigration status, or citizenship status. The College's prohibition on sex discrimination and sexual harassment extends to all aspects of its educational programs and activities, including, but not limited to, admissions, employment, academics, housing, and student services.

"Sexual misconduct," is an umbrella term covering sex discrimination, sexual harassment, and sexual violence and this term will be used throughout this policy and the Complaint Resolution Procedures when collectively referring to these types of conduct. Sexual misconduct is a form of discrimination that violates Title VII of the Civil Rights Act of 1964.

Examples of sexual harassment include requests for sexual favors and other unwelcome verbal or physical conduct of a sexual nature by any employee, student, or campus visitor when:

- Submission to such conduct is made or threatened to be made, either explicitly or implicitly, a term or condition of an individual's employment or education
- Submission to or rejection of such conduct by an individual is used or threatened to be used as the basis for academic or employment decisions affecting that individual, or
- Such conduct has the purpose or effect of substantially interfering with an individual's academic or professional performance or creating what a reasonable person would perceive as an intimidating, hostile, or offensive employment, education, or living environment.

Prevention Efforts and Programs

Ozarks Technical Community College attempts to foster a safe living, learning, and working environment for all members of the campus community. The College offers the educational programming that addresses all aspects of sexual assault, domestic violence, dating violence and stalking, including safety precautions and prevention, emergency management, reporting, medical and counseling services, the Ozarks Tech discipline systems, academic schedules, the campus response to sexual violence, domestic violence, dating violence, and instances of stalking.

Types of Prevention Efforts and Programs

The College develops educational programs concerning sexual assault, domestic violence, dating violence and stalking. Involved students, faculty, staff, and community members provide information and promote discussion on interpersonal abuse and violence issues. For additional information about campus educational programs concerning sexual assault, domestic violence, dating violence and stalking, contact the Title IX Coordinator and Human Resources.

Prevention Programs: These are programs to prevent dating violence, domestic violence, sexual assault, and stalking. The programs are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research or assessed for value, effectiveness, or outcome. They also consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels.

Awareness Programs: These are community-wide or audience-specific programming, initiatives, and strategies that increase audience knowledge and share information and resources to prevent violence, promote safety, and reduce perpetration.

Bystander Intervention: These programs and trainings offer safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence,

domestic violence, sexual assault, or stalking. They include recognizing situations of potential harm, understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action to intervene.

Ongoing Prevention & Awareness Campaigns: These include programming, initiatives, and strategies that are sustained over time and focus on increasing understanding of topics relevant to and skills for addressing dating violence, domestic violence, sexual assault, and stalking, using a range of strategies with audiences throughout the college/university and including information provided in campus education programs.

Primary Prevention Programs: These include programming, initiatives, and strategies informed by research or assessed for value, effectiveness, or outcome that are intended to stop dating violence, domestic violence, sexual assault, and stalking before they occur through the promotion of positive and healthy behaviors that foster healthy, mutually respectful relationships and sexuality, encourage safe bystander intervention, and seek to change behavior and social norms in healthy and safe directions.

Risk Reduction Programs: These programs present options designed to decrease perpetration and bystander inaction, and to increase empowerment for victims to promote safety and to help individuals and communities address conditions that facilitate violence.

Students, faculty, and staff are encouraged to participate in Safe Colleges, Title IX and VAWA educational programs that discuss sexual assault and relationship violence prevention training. The College continually reviews and modifies its physical surroundings to enhance security and safety, such as campus lighting, locking procedures, signage, etc. For additional safety information, contact Ozarks Tech Safety & Security Department at **417-447-6911**.

Safe Colleges

On-line sexual and interpersonal violence prevention training that provides students, faculty, and staff with tools to be an ally to someone who has experienced sexual or interpersonal (relationship) violence or stalking. Engage

Engage is a training program that provides students, staff, and faculty with information, skills, and resources to recognize when Ozark Tech and local community members are struggling with mental health disorders, substance abuse, bias and discrimination, and sexual harassment. The program develops a bystander intervention protocol for addressing and supporting individuals who are experiencing the aforementioned behaviors.

How to be an Active Bystander

Bystanders play a critical role in the prevention of sexual and relationship violence. Bystanders are individuals who observe violence or witness the conditions that perpetuate violence. They are not directly involved, but have the choice to intervene, speak up, or do something about it. We want to promote a culture of community accountability where bystanders are actively engaged in the prevention of violence without causing further harm.

The Bystander Intervention Model

1. ***Notice that Something is happening***
2. ***Interpret the event as an emergency***
3. ***Take responsibility for providing help***
4. ***Decide how to provide help***
5. ***Take action to provide help***

We may not always know what to do even if we want to help. Below is a list of ways to be an active bystander. If you or someone else is in immediate danger, dial **911**, or **417-447-6911**. This could be when a person is yelling at or being physically abusive towards another and it is not safe for you to interrupt.

- Watch out for your friends and fellow students/employees. If you see someone who looks like they could be in trouble or need help, ask if they are ok.
- Confront people who seclude, hit on, try to make out with, or have sex with people who are incapacitated.
- Speak up when someone discusses plans to take advantage of another person.
- Believe someone who discloses sexual assault, abusive behavior, or experience with stalking.
- Refer people to on or off campus resources listed in this document.

Risk Reduction Tips

With no intent to victim blame and recognizing that only rapists are responsible for rape, the following are strategies to reduce one’s risk of sexual assault or harassment.

- Be aware of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a tough situation.
- Try to avoid isolated areas. It is more difficult to get help if no one is around.
- Walk with purpose. Even if you do not know where you are going, act like you do.
- Trust your instincts. If a situation or location feels unsafe or uncomfortable, it probably isn't the best place to be.
- Try not to load yourself down with packages or bags as this can make you appear more vulnerable.
- Make sure your cell phone is with you and charged and that you have money for transportation.
- Do not allow yourself to be isolated with someone you do not trust or someone you do not know.
- Avoid putting music headphones in both ears so that you can be more aware of your surroundings, especially if you are walking alone.
- When you go to a social gathering, go with a group of friends. Arrive together, check in with each other throughout the evening, and leave together. Knowing where you are and who is around you may help you to find a way out of a tough situation.
- Trust your instincts. If you feel unsafe in any situation, go with your gut. If you see something suspicious, contact law enforcement immediately (contact local authorities by calling **911**).
- Do not leave your drink unattended while talking, dancing, using the restroom, or making a phone call. If you have left your drink alone, get a new one.
- Do not accept drinks from people you do not know or trust. If you choose to accept a drink, go with the person to the bar to order it, watch it being poured, and carry it yourself. At parties, do not drink from punch bowls or other large, common open containers.
- Watch out for your friends, and vice versa. If a friend seems out of it, is way too intoxicated for the amount of alcohol consumed, or is acting out of character, get him or her to a safe place immediately.
- If you suspect you or a friend has been drugged, contact law enforcement immediately (local authorities can be reached by calling **911**). Be explicit with doctors so they can give you the correct tests (you will need a urine test and possibly others).

If you need to get out of an uncomfortable or scary situation here are some things that you can try:

- Remember that being in this situation is not your fault. You did not do anything wrong; it is the person who is making you uncomfortable that is to blame.
- Be true to yourself. Do not feel obligated to do anything you do not want to do. "I don't want to," is always a good enough reason. Do what feels right to you and with what you are comfortable.
- Have a code word with your friends or family so that if you do not feel comfortable you can call them and communicate your discomfort without the person you are with knowing. Your friends or family can then come to get you or make up an excuse for you to leave.
- Lie. If you do not want to hurt the person's feelings it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse. Examples of excuses you could use are needing to take care of a friend or family member, not feeling well, having somewhere else that you need to be, etc.
- Try to think of an escape route. How would you try to get out of the room? Where are the doors? Windows? Are there people around who might be able to help you? Is there an emergency phone nearby?
- If you and/or the other person have been drinking, you can say that you would rather wait until you both have your full judgment before doing anything you may regret later.

REPORTING INCIDENTS OF SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE OR STALKING

1. Find a safe location away from the perpetrator.

Ask a trusted friend to be with you for moral support.

2. Know that what happened was not your fault.

3. Report the attack to law enforcement or Ozarks Tech Safety & Security immediately.

Victims of sexual assault are strongly encouraged to contact 911 immediately. If you prefer you can contact the Ozarks Tech Safety & Security Department at 417-447-6689 and an officer will assist you with notifying law enforcement authorities if you wish. An Ozarks Tech Safety & Security Officer will help in reporting the crime and in providing information for counseling support and medical treatment. Victims will be provided with a written copy of their rights, options, and services available regardless of if the offense occurred on or off campus.

Ozarks Technical Community College strongly encourages persons who have been the victims of sexual assault, stalking, dating violence or domestic violence to seek assistance and to seek judicial action for their own protection and that of the entire campus community. Filing a report with law enforcement will not obligate the victim to prosecute, nor will it subject the victim to scrutiny or judgmental opinions from officers.

Anyone who has been a victim of sexual assault, domestic violence, dating violence or stalking may choose to pursue both criminal prosecution and college disciplinary procedures. Ozarks Tech also recognizes the victim retains the right not to pursue either criminal prosecution, or a college disciplinary proceeding.

Choosing not to pursue the College's internal procedures or criminal action, however, does not relieve the College of its responsibilities to investigate or to act, under Title IX. Therefore, to the extent that doing so does not interfere with any criminal investigation, the College will proceed with its own investigation and resolution of the complaint.

Alternatives to Immediately Filing a Police Report

1. Report the crime later.
2. Make a report to a CSA, Title IX Coordinator, or Deputy Title IX Coordinator. Such a report may be used for actions which include, but are not limited to, on-campus administrative proceedings.
3. Make an anonymous report to the Safety & Security Department utilizing OTC Cares (a report that notifies the Safety & Security Department that a sexual assault, domestic violence, dating violence, or stalking incident has occurred, but gives no names or identification).
4. Contact a referral agency for help.
5. Make a report to the Title IX Coordinator. Such a report may be used for actions, which include, but are not limited to, on-campus administrative proceedings.
6. Contact the Title IX Coordinator or a Deputy Title IX Coordinator for more information concerning the administrative process. Faculty and staff may also consult Human Resources or the Title IX Coordinator.
7. Contact the Project HEAL Victim Services Coordinator for additional on and off campus resources and support and to learn more about your reporting options.

4. Preserve all evidence of the attack.

To preserve evidence for the option of pursuing criminal prosecution, internal disciplinary processes or an order of protection, a person should report the incident to Ozarks Tech Safety & Security and law enforcement.

- Do not bathe, use the toilet, wash your hands, brush your teeth, eat, or smoke.
- If you are still in the location at which the crime occurred, do not clean or straighten up or remove anything.
- Write down all the details you can recall about the attack and the perpetrator.

5. Seek medical care as soon as possible.

Even if you do not have any visible physical injuries, you may be at risk of acquiring a sexually transmitted disease (women may also be at risk for pregnancy).

CRIMINAL DEFINITIONS/MISSOURI STATUTES

Definitions for numerous terms used by Ozarks Technical Community College policy and procedures, as well as terms referred to in Missouri Revised Statutes are outlined below.

Sexual Assault

Sexual Assault means causing or attempting to cause another to engage involuntarily in any sexual act by force, threat of force, duress, or without their consent. It includes the crimes of rape, sodomy,

forcible fondling, incest, and statutory rape as defined by the 2013 Violence Against Women Act (VAWA) and the Revised Statutes of the State of Missouri (RSMo) Chapter 566.

Consent

Consent or lack of consent may be expressed or implied. Assent does not constitute consent if (a) it is given by a person who lacks the mental capacity to authorize the conduct charged to constitute the offense, and such mental incapacity is manifest or known to the actor; or (b) it is given by a person who by reason of youth, mental disease or defect, intoxication, a drug-induced state, or any other reason is manifestly unable or known by the actor or to be unable to make a reasonable judgment as to the nature or harmfulness of the conduct charged to constitute the offense; or (c) it is induced by force, duress, or deception.

Lack of consent is a critical factor in determining whether sexual violence has occurred. Consent is informed, freely given, and mutually understood. Consent requires an affirmative act or statement by each participant. Consent is not passive.

- If coercion, intimidation, threats, and/or physical force are used, there is no consent.
- If a person is mentally or physically incapacitated or impaired by alcohol or drugs such that the person cannot understand the fact, nature, or extent of the sexual situation, there is no consent.
- Warning signs of when a person may be incapacitated due to drug and/or alcohol use include slurred speech, falling down, passing out, and vomiting.
- If a person is asleep or unconscious, there is no consent.
- If a person is below the minimum age of consent in the applicable jurisdiction, there is no consent.
- Consent to one form of sexual activity does not imply consent to other forms of sexual activity.
- Consent can be withdrawn. A person who initially consents to sexual activity is deemed not to have consented to any sexual activity that occurs after he or she withdraws consent.
- Effective consent may not exist when there is a disparity in power between the parties (e.g., faculty/student, supervisor/employee).

Consent - RSMo 556.061(14)

Consent or lack of consent may be expressed or implied.

Assent does not constitute consent if:

- (a) It is given by a person who lacks the mental capacity to authorize the conduct charged to constitute the offense and such mental incapacity is manifest or known to the actor; or
- (b) It is given by a person who by reason of youth, mental disease or defect, intoxication, a drug-induced state, or any other reason is manifestly unable or known by the actor to be unable to make a reasonable judgment as to the nature or harmfulness of the conduct charged to constitute the offense; or
- (c) It is induced by force, duress, or deception.

Domestic Violence/Dating Violence

Domestic Violence is a felony or misdemeanor crime of violence committed by a current or former spouse of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

Protective Orders

The Safety & Security Department can provide information on how victims may obtain an Adult Order of Protection, which provides protective relief for victims of domestic violence, stalking, or sexual

assault.

A protection order may be obtained by filing a petition with the court. Courts can issue two types of orders: (1) Ex-Parte Orders, which act as a temporary emergency order to protect a victim, for up to 15 days, until a court hearing, and (2) Full Orders of Protection, which may be issued for up to one year. Additional information about the orders may be found at: [Missouri Courts - Orders of Protection](#).

Persons who wish to file for an order of protection can contact the Circuit Court Clerk's office at the courthouse in the county in which they reside to file. The Circuit Court Clerk's office can provide you with the necessary forms to file. Forms may also be found online at: [Missouri Courts](#).

The filer should be prepared to present documentation and/or other forms of evidence when filing for an order of protection to support the request. Having dates, times and locations of events will help with your request for a protective order. Please note in all cases Ozarks Tech staff and court staff will not be able to assist you with what to write in the petition, only help in completing the paperwork.

Upon filing a petition and with good cause shown in the petition, your petition will be presented to a Judge for review. If approved the court will issue an Ex-Parte Order of Protection. Most court hearings are held within 15 days after filing. If you have been given a court date, you will receive a copy of your paperwork.

If you receive an Ex-Parte or a Full Order of Protection, please provide the Safety & Security Department Office a copy of the order. This will allow the department to contact law enforcement authorities for follow-up if the Order of Protection is violated on campus. Always keep extra copies of the Order of Protection with you in case they are needed by law enforcement.

Dating Violence

Dating Violence means violence committed by a person:

- (A) Who is or has been in a social relationship of a romantic or intimate nature with the victim; and
- (B) Where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - (i) The length of the relationship.
 - (ii) The type of relationship.

For the purpose of this definition-

EQUITY & COMPLIANCE OFFICE - TITLE IX

Ozarks Technical Community College will comply with Title IX of the Education Amendments of 1972 and its implementing regulations, which prohibit discrimination based on sex in the College's educational programs and activities.

The College has jurisdiction over Title IX-related complaints regarding conduct that occurred on campus, during or at an official College program or activity in the United States. All complaints made under this

policy will be investigated and, if necessary, take action to prevent the recurrence of sexual discrimination and remedy its effects.

Title IX and its implementing regulations also prohibit retaliation for asserting claims of sex discrimination.

Retaliation is taking adverse employment or educational action against a person who files claims, complaints or charges under these procedures, or under applicable local, state or federal statute, who is suspected of having filed such claims, complaints or charges, who has assisted or participated in an investigation or resolution of such claims, complaints or charges, or who has protested practices alleged to be in violation of the non-discrimination policy of the college, or local, state or federal regulation or statute. Retaliation, even in the absence of provable discrimination in the original complaint or charge, constitutes as serious a violation of this policy as proved discrimination under the original claim, complaint, or charge.

Examples of retaliation, which are prohibited by this policy, include, but are not limited to:

- Terminating an employee for expressing an intention to file or for filing a charge of discrimination.
- Refusing to hire an employee due to the employee's pursuit of a discrimination charge against a former employer.
- Denying a promotion to an employee for complaining to anyone about alleged discrimination or harassment.
- Refusing tenure to a faculty member for filing a complaint of discrimination or harassment pursuant to the Discrimination Complaint Procedures.
- Issuing an unjustified negative evaluation to an employee for testifying in a legal proceeding concerning a complaint of discrimination, harassment, or retaliation.
- Assigning a student an unearned, poor grade for requesting a reasonable course accommodation based on religion.
- Assigning a student an unearned, failing grade for cooperating with an internal investigation of alleged discriminatory practices or a complaint of discrimination or harassment.
- Refusing to admit a student for requesting reasonable accommodation based on disability in the admission process.
- Refusing to hire a job applicant for requesting reasonable accommodation based on disability in the application process.

Members of the academic community should not assume that any of the forms of speech described above are protected by the principles of academic freedom or the First Amendment to the United States Constitution.

SEXUAL HARRASSMENT INVESTIGATIVE PROCESS AND DISCIPLINARY SANCTIONS

Ozarks Technical Community College will hold perpetrators of sexual assault, stalking, dating violence and domestic violence accountable for their actions through appropriate student conduct and personnel procedures and by working with community agencies and law enforcement personnel where appropriate.

Initial Complaint

All college employees have a duty to report sexual misconduct when they receive a report of such conduct or witness such conduct. This does not apply to the employees who may maintain confidentiality as outlined in Pastoral and Professional Counselor reporting.

Students, faculty, staff and other persons who wish to report sexual misconduct should file a complaint with the Title IX Coordinator, the Deputy Title IX Coordinator, or online through “OTC Cares” at <http://www.Otc.edu/bit/>

Information Provided to Complainant and Respondent

A complainant who makes a claim of sexual misconduct to the college will be given a copy of a document explaining their rights and responsibilities after filing a complaint of sexual misconduct. The document provides information about the college policy and the Complaint Resolution Procedures used

to investigate and resolve complaints of sexual misconduct, options for filing complaints with law enforcement, resources that are available on campus and in the community, etc. The person against whom a complaint has been filed will also be given information about the process.

Interim Measures

Steps will be made to protect the complainant from further discrimination or harassment. This may include separating the parties, placing limitations on contact between the parties, suspension, assisting and allowing the complainant to change his or her academic, living, transportation, or work situation if options to do so are reasonably available and upon request of the complainant. Such changes may be available regardless of whether the victim chooses to report the crime to the Safety & Security Department or local law enforcement.

The College will provide written notification to students and employees about existing counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid and other services available for victims, both within the college and the community.

Amnesty

The College recognizes that an individual who has been drinking alcohol or using drugs may be hesitant to report sexual misconduct. To encourage reporting, the college will take no disciplinary action for drug or alcohol use against an individual reporting sexual misconduct, either as the complainant or as a witness, provided that these conduct violations did not and do not place the health or safety of any other person at risk. However, the college may require the reporting individual to attend a course or pursue other educational interventions related to alcohol and drugs. The College’s commitment to amnesty in these situations does not prevent action by law enforcement against an individual who has illegally consumed alcohol or drugs.

Confidentiality

Reasonable and appropriate efforts to preserve an individual’s privacy and protect the confidentiality of information when investigating and resolving a complaint will be made. However, because of laws relating to reporting and other state and federal laws, the college cannot guarantee confidentiality to those who make complaints.

Informal Resolution

Informal means of resolution, such as mediation, may be used in lieu of the formal investigation and hearing procedure. However, informal means may only be used with the complainant’s voluntary

cooperation and the involvement of the Title IX Coordinator. The complainant, however, will not be required to work out the problem directly with the respondent. The complainant may terminate any such informal means at any time. In any event, informal means, even on a voluntary basis, will not be used to resolve complaints alleging any form of sexual violence.

Investigation and Hearing Process

All complaints of sexual misconduct will be promptly and thoroughly investigated. Disciplinary action where appropriate will be taken. Once a formal complaint is made, the college will commence an investigation as soon as practicable. The purpose of the investigation is to collect information from both the complainant and respondent for presentation to the Title IX Hearing Officer.

During the investigation, the complainant will have the opportunity to describe his or her allegations and present supporting witnesses or other evidence. The respondent will have the opportunity to respond to the allegations and present supporting witnesses or other evidence. All parties and witnesses involved in the investigation are expected to cooperate and provide complete and truthful information. Parties will be provided equal access to the evidence collected and the opportunity to comment, rebut, counter, and/or expand on any piece of evidence collected throughout the investigation. An investigative report summarizing evidence and statements of the witnesses will be prepared at the conclusion of the investigation and provided to the parties.

At the conclusion of the investigation, a hearing will be held, where the investigator will present an investigative report to an appointed hearing officer who will decide whether a violation of college policy occurred. At this time, both parties will have the opportunity to present their case before the hearing officer and be available for cross-examination from the other party's advisor. No party will be allowed to cross-examine the other directly but will do so through their advisor. If a party does not have an advisor, one will be appointed for them free of charge by the college.

Support Person/Advisor

Both the complainant and the respondent may ask a support person/advisor to accompany him or her at all stages of the process. In cases involving multiple complainants or respondents, the support person/advisor cannot be another complainant or respondent. The support person/advisor does not serve as an advocate on behalf of the complainant or respondent may not be actively involved in the investigation, and he or she must agree to maintain the confidentiality of the process. A support person/advisor may be removed if he or she becomes disruptive or does not abide by the limitations discussed in the previous sentence. The advisor will conduct all cross-examinations for the party during the Title IX hearing.

Rights of the Parties

The complainant and respondent shall have equal rights. They include:

- Equal opportunity to identify and have considered witnesses and other relevant evidence.
- Similar and timely access to all information considered by the Investigating Officer.
- Equal opportunity to review any statements or evidence provided by the other party.
- Equal access to review and comment upon any information independently developed by the Investigating Officer.
- Equal opportunity to cross examine the opposing party and witnesses for credibility.
- Equal opportunity to appeal determinations pursuant to section III-A below.

Resolution

If a complaint of sexual misconduct is found to be substantiated, the college will take appropriate corrective and remedial action to prevent the recurrence of the conduct and correct its discriminatory effects.

The complainant and the respondent will receive a copy of the Summary of Findings including any remedial measures.

The findings of the investigation shall be final subject only to the right of appeal.

Result: Any initial, interim, or final decision by any official or entity authorized to resolve disciplinary matters within the institution. The result must include any sanctions imposed by the college.

Retaliation

It is a violation of this policy to retaliate against any member of the College Community who reports or assists in making a complaint of sexual misconduct or who participates in the investigation of a complaint in any way. People who believe they have been retaliated against in violation of this policy should make a complaint in the manner set forth in this section.

Appeals

All appeals of determinations where a student is the respondent will be addressed pursuant to the Student Discipline and Appeals Process (Policy 5.16).

All appeals of determinations where an employee is the respondent will be addressed pursuant to the Employee Grievances and Appeals policy (Policy 3.60).

Appeals may be made on the following grounds:

- Added information that alters the finding and was not reasonably available at the time of issuance of the written decision.
- A procedural error that unfairly and materially affected the outcome of the investigation.
- The sanction imposed is excessive or disproportionate to the offense(s); and/or
- Conflict of interest or bias on the part of the person(s) who participates in the preparation and/or completion of the written decision.

Disciplinary Sanctions

Ozarks Technical Community College will hold perpetrators of sexual assault, stalking, dating violence and domestic violence accountable for their actions through appropriate student conduct and personnel procedures and by working with community agencies and law enforcement personnel where appropriate. For students, appropriate disciplinary sanctions for substantiated violations of this policy can range from reprimands up to and including expulsion based upon Section 5 of the Standards of Student Conduct; more than one of the sanctions may be imposed for any single violation to include the following:

REGISTERED SEX OFFENDER INFORMATION

The *Campus Sex Crimes Prevention Act of 2000* requires institutions of higher education to advise members of the campus community where they can obtain information provided by the state concerning registered sex offenders. It also requires sex offenders to notify the state of each institution of higher education in the state at which they are employed or enrolled or carrying on a vocation. The state is then required to notify the College of any such information it receives.

Registered sex offenders are not allowed onto the property of day care facilities and are not allowed to loiter within 500 feet of daycare facilities. It also requires jurisdictions (other than federally recognized Indian tribes) to impose a maximum criminal penalty greater than one year for sex offenders who fail to comply with registration requirements.

In Missouri, convicted sex offenders must register with the sheriff's office in the county in which they

reside, and the sex offender database which is maintained by the Missouri State Highway Patrol.

To obtain more information regarding registered sex offenders in the area please contact the following law enforcement agency:

OTC CARES: BEHAVIORAL INTERVENTION AND STUDENT CARES TEAM

The OTC Cares system is Ozarks Technical Community College's coordinated approach to providing holistic, proactive support for students. By connecting individuals with appropriate resources, the system helps mitigate risk, promote safety and well-being, and support a productive learning environment across all OTC locations.

The Ozark Tech Cares online referral form allows members of the college community to confidentially report concerns about individuals who may be in distress. This system is designed to make it easier to identify and refer students who may need support.

Referrals submitted through OTC Cares are reviewed by members of the college's Student Care Team (SCT) and Behavioral Intervention Team (BIT):

- The Student Care Team (SCT) includes staff who serve as case managers. This team coordinates campus and community resources to assist students experiencing personal challenges, including mental health struggles and basic needs insecurities, that may interfere with academic success.
- The Behavioral Intervention Team (BIT) conducts individualized assessments and coordinates appropriate college responses when referrals indicate urgent, escalating, or potentially threatening behaviors.

All members of the Ozarks Tech community are encouraged to report student behaviors of concern by using the online referral system at otc.edu/otccares. so trained team members can proactively support students and connect them with needed resources.

More information about the OTC Cares protocol is available at <https://students.otc.edu/otccares> or by emailing otccares@otc.edu.

PREPARATION AND DISCLOSURE OF CRIME STATISTICS

Ozarks Technical Community College is responsible for preparing an Annual Security Report and disclosing crime statistics in compliance with the *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act* (Clery Act), 20 U.S.C. Section 1092. The Annual Security Report includes campus security policy statements and campus crime statistics for the previous three calendar years, so

current and potential families, students, and employees can be knowledgeable about the safety of college campuses. The Annual Security report is reviewed and updated annually as a cohesive document and submitted to the U.S. Department of Education by October 1 of each year.

The College Director of Safety & Security is the designated Campus Security Survey Administrator, who is responsible for collecting and reporting the annual crime statistics. The Annual Security Report is prepared in cooperation with the Office of Student Affairs, the Dean of Students, Office of Equity and Compliance and the Title IX Coordinator, who provide updated information on the College's educational programs and policy disclosures. Crime statistics are compiled from requests made to local law enforcement agencies surrounding each campus, a review of Ozarks Tech Safety & Security Department Crime Logs and crime statistics reported to CSAs during the previous calendar year, January 1 to December 31.

An additional purpose of the Annual Security Report is to serve as a mechanism for the Safety & Security Department to fulfill its role of informing the campus community of crimes reported to the department, crime prevention tips, victim/witness services, reporting procedures, mass notification procedures, important contact information, and additional information from the department.

The Annual Security Report is available annually through publications, or computer network to all enrolled students and current faculty and staff. The College Director of Safety & Security distributes an e-mail notification to all enrolled students, faculty, and staff, informing them of the appropriate website address to access the Annual Security Report by October 1st of each year. Copies of the report may also be obtained at any Ozarks Tech Safety & Security Department office or by calling **417-447-6698**.

All prospective students may obtain a copy of this report from the Office of Admissions. All prospective employees may obtain a copy of this report from Human Resources. A partial version of this report is located in the Ozarks Tech Student Handbook, including the website address to access the complete report.

Appendix A: Ozarks Technical Community College Standards of Student Conduct

5.15 – Standards of Conduct for Students and Organizations

A. Purpose

To describe the standards of conduct to which students must adhere.

B. Policy

The basic standard of behavior requires students to comply with, observe and obey state and/or federal laws; the board of trustees' policies and procedures of the college; and orders of the chancellor, faculty, administrators and staff of the institution who are charged with the administration of institutional affairs.

Students are not entitled to greater immunities or privileges before the law than those enjoyed by other citizens generally. Students may be penalized by the college for violating its standards of conduct even if they are also punished by state or federal authorities for the same act.

C. Procedures

Inherent Authority

The college expects all students to obey the law, to show respect for properly constituted authority, to maintain integrity and high standards of individual honor in scholastic work and to observe standards of conduct appropriate for a community of scholars. In short, students enrolled in the college assume an obligation to conduct themselves in a manner compatible with the college's function as an educational institution, whether on or off campus, in person or online.

The college reserves the right to take necessary and appropriate action to protect the safety and well-being of the campus and to support the mission of the college. When a college administrator receives a report that a student's behavior off-campus potentially poses significant danger to the college community, or would otherwise disrupt the campus environment or adversely affect the college, appropriate action as outlined in these procedures may be taken. Complaints about off-campus behavior will be considered on a case-by-case basis to determine whether they merit review within the student conduct system.

To the extent feasible and practical, disciplinary procedures at the college are in writing in order to provide students general notice of prohibited conduct. These procedures are not a criminal code; they should be read broadly and are not designed to define misconduct in exhaustive terms.

The succeeding enumerated violations describe offenses for which disciplinary proceedings may be initiated by the vice chancellor for student affairs, the dean of students or the designated campus or center administrator.

Enumerated Standards

Violations of the Code of Conduct include but are not limited to the following:

Appendix B: Ozarks Technical Community College Drug and Alcohol Prevention Policy

5.37 – Drug and Alcohol Prevention

A. Purpose

To establish drug and alcohol prevention programming for students and employees pursuant to the Drug-Free Schools and Communities Act Amendments of 1989.

B. Policy

The college will establish, enforce and communicate a comprehensive drug and alcohol prevention program to students and employees, which will include the Biennial Review and annual notifications pursuant to the Drug-Free Schools and Communities Act Amendments of 1989.

C. Procedures

Ozarks Tech's drug and alcohol prevention program (D.A.A.P.P.) includes the college policy, the Biennial Review and annual, system-wide notifications to students and employees about the college drug and alcohol abuse prevention information.

The following components must be included in the Biennial Review and the drug and alcohol annual notifications to students and employees.

Standards of Conduct

- Ozarks Tech prohibits the unlawful use, possession, distribution, sale or being under the influence of illicit drugs by members of the college community on college owned or controlled property and at college sponsored events.
- On-campus use, possession, distribution, or sale of alcohol by members of the college community on college owned or controlled property is strictly prohibited except as approved by the Ozarks Tech Chancellor for specific college-sponsored events or functions, when attending functions or conferences on the college's behalf where alcohol is served as part of a social function, or authorized use of alcohol within approved curricular programs.
- Despite the legalization of recreational and medical use of marijuana in Missouri, it remains a violation of federal laws to use, possess, cultivate, distribute or be under the influence of marijuana on college-owned or controlled property or at college-sponsored events.
- Vendors and other non-student visitors who violate this policy will be removed from campus. If the conduct resulting in discipline also involves a violation of state or federal law, the college will refer the matter to the appropriate authorities for prosecution.

Academic Program Testing

Certain programs at the college require their students to submit to random and scheduled drug testing for safety purposes and to satisfy the requirements of clinical and lab partners. The practice and procedure of testing students within these programs will be governed and developed by the individual programs and approved by the vice chancellor of academic affairs and vice chancellor for student affairs. These program-specific practices and procedures will outline the manner and timing of testing, the results of a positive test, and the opportunity for an appeal of a positive test. Students are subject to their academic

department's drug testing procedure and to this policy and its disciplinary sanctions.

Legal Consequences

- Federal law prohibits, the manufacture, distribution, sale and possession of controlled substances as outlined in 21 United States Code, Sections 801 through 971.
- Convictions for federal drug offenses can also result in a student's loss of eligibility for federal financial aid.
- State and local law also provide penalties for violations relating to the unlawful manufacture, sale, use or possession of controlled (and/or imitation of controlled) substances and alcohol. In addition, states and localities have laws relating to underage drinking, driving while intoxicated or under the influence of alcohol and/or illicit drugs. Sanctions for violations may range from local citations to state law felonies. Penalties may range from small fines to prison terms, depending on the violation and criminal history of the individual.

Health Risks

Serious health risks are associated with the use of alcohol or other drugs. A list of health risks associated with particular types of drugs and alcohol is available through Ozarks Tech's Counseling Services department and the National Institute on Drug Abuse.

Resources

If a student or employee is interested in resources available in the community for drug or alcohol counseling, treatment, rehabilitation or re-entry, they may contact Ozarks Tech's Counseling Services at counseling@Otc.edu or 417-447-6974. Counseling Services provides educational information on drug and alcohol abuse through the distribution of printed materials, scheduled programming throughout the academic year and a website that includes substance use-related resources and links to online screenings.

D. Definitions

Ozarks Tech's Biennial Review is evaluated during each even-numbered year.

College Community is students, faculty and staff of the college, the Board of Trustees, visitors, contractors and consultants performing work or services on college owned or leased properties and all other invitees of the college.

Appendix C: Ozarks Technical Community College Sexual Misconduct Policy

4.06 Sexual Harassment and Grievance Procedures

A. Purpose

The purpose of this policy is the prohibition of all sexual harassment as defined by the Department of Education and to outline the steps that will be followed if there is a complaint and/or report of sexual harassment filed against a student, employee, visitor, guest, client, or third-party affiliate. To do so and to ensure compliance with federal and state civil rights laws and regulations, the college has developed internal policies and procedures as prescribed in this policy that provide a prompt, fair, and impartial process for those involved in allegations of harassment on the basis of sex.

B. Policy

The college is committed to providing a workplace and educational environment, as well as other benefits, programs, and activities that are free from discrimination, harassment, and retaliation.

In order to comply with Title IX of the Education Amendments of 1972 and its implementing regulations, the college prohibits discrimination and harassment based on sex in the college's educational programs and activities over which it exercises substantial control within the United States. Title IX and its implementing regulations also prohibit retaliation for asserting claims of sex discrimination.

This policy applies to all college employees, students, applicants for employment, customers, third-parties, contractors, vendors, and all other persons that participate in the college's educational programs and activities, including visitors on campus. The college's prohibition on sexual harassment extends to all aspects of its educational programs and activities, including, but not limited to, admissions, employment, academics, housing, and student services.

C. Procedures

Sexual Harassment

Sexual harassment is considered a form of sexual discrimination under Title IX, and formal complaints of sexual harassment are subject to this grievance process when they are received by the Title IX coordinator and/or other individuals on campus with the authority to take corrective actions on behalf of the college. Those individuals/positions will be reviewed annually and communicated on the college's website.

In order for a formal complaint of sexual harassment to be reviewed and/or resolved through the Title IX grievance process, it must consist of conduct that meets at least one of the following criteria:

- A college employee conditioning the provision of an aid, benefit, or services of the college on an individuals' participation in unwelcome sexual conduct;
- Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person equal access to the college's educational program or activity;
- "Sexual assault" as defined by the Jeanne Clery Act (20 USC § 1092(f)(6)(A)(v)), "dating violence", "domestic violence" or "stalking" as defined by the Violence Against Women Act (34 USC § 12291(a)).

Jurisdiction

The Title IX grievance process is available when a formal complaint falls within the college's Title IX jurisdiction. The Title IX jurisdiction includes locations, events or circumstances over which the college exercises substantial authority and control, and the sexual harassment occurs within the United States.

This policy does not apply to sexual harassment that occurs off-campus, in a private setting, and outside the scope of the college's education programs and activities. Such conduct is prohibited by the Standards of Student Conduct if committed by a student, or other college policies and standards if committed by an employee. If a report alleges actions which fall outside of the scope and jurisdiction of this policy, the Title IX coordinator and the college will review the report under the standards of student conduct and employee code of conduct for resolution.

Regardless of the status of the complainant, when the respondent is a member of the college community, a grievance process through this policy or another college policy may be available.

Title IX coordinator

The college has designated a Title IX coordinator to coordinate its compliance with Title IX and to receive inquiries regarding Title IX, including complaints of sex discrimination.

The director of equity and compliance serves as the Title IX coordinator and ADA/504 Coordinator and oversees implementation of the college's policy on equal opportunity, harassment, and nondiscrimination. The Title IX coordinator has the primary responsibility for coordinating the college's efforts related to the intake, investigation, resolution, and implementation of investigations and supportive measures to stop, remediate, and prevent discrimination, harassment, and retaliation prohibited under this policy and policy 3.01.

The Title IX coordinator manages the Title IX team and acts with independence and authority free from bias and conflicts of interest. The Title IX coordinator oversees all resolutions under this policy and these procedures. The members of the Title IX team are vetted and trained to ensure they are not biased for or against any party in a specific case, for or against complainants and/or respondents, generally.

Additionally, the Title IX coordinator is responsible for ensuring the college's policies relating to Title IX are made available to all current and prospective students, current and prospective employees, and the general public.

Complaints or notices of alleged policy violations, or inquiries about or concerns regarding this policy and procedures, may be made internally to:

Title IX Coordinator and Director of Civil Rights Compliance
1001 E. Chestnut Expressway
Springfield, MO 65802
417-447-8188
Titleix@otc.edu

The college has also designated the following Deputy Title IX coordinator to assist the Title IX coordinator in coordinating Title IX compliance when employees are involved and to receive inquiries regarding Title IX, including complaints of sex discrimination:

Chief Human Resources Officer
1001 E. Chestnut Expressway
Springfield, MO 65802
417-447-2631

Mandated Reporters

All college employees, except for those who are designated as confidential resources, are mandated reporters and must promptly share with the Title IX coordinator all known details of a report of sexual harassment made to them in the course of their employment.

Employees must promptly share all details of behaviors under this policy that they observe or have knowledge of, even if not reported to them by a complainant or third-party. Behaviors include actual knowledge or suspicion of sexual harassment suffered by an employee or student.

At the request of a complainant, notice may be given by a mandated reporter to the Title IX coordinator anonymously, without identification of the complainant. The mandated reporter cannot remain anonymous themselves.

If a complainant desires to talk confidentially, the college has designated Counseling Services and a Victim Advocate as confidential resources. The Counseling Services office can be contacted at (417) 447-6974 or by emailing counseling@Otc.edu. The Victim Advocate can be contacted at (417) 447-7859. These confidential resources will not report the circumstances without the complainant's permission, unless otherwise required by law (such as when the victim is a minor). Notwithstanding, a non-identifying report may be made to the Title IX coordinator so that the college can identify any patterns of sexual misconduct on campus and, if the conduct is a crime, it can be included in the college's annual crime statistics disclosure.

The college will maintain the confidentiality of all individuals who make a report or complaint of sex discrimination, who make a report or file a formal complaint of sexual harassment, any complainant, respondent, or witness participating in a Title IX grievance process, except as may be permitted by FERPA, or as required by law, or as required to conduct any investigation, hearing or other campus judicial arising from 34 CFR Part 106.

The grievance process is activated by the receipt of a complaint. Complaints may be filed in person at the college's Title IX office, by email to the Title IX coordinator, or online by visiting <https://students.thecollege.edu/title-ix/report-a-concern/>

Formal Complaint

A complainant may file a formal complaint with the Title IX coordinator requesting that the college investigate and adjudicate a report of sexual harassment. In order to be considered a formal complaint, the complainant must be participating in, or attempting to participate in, one or more of the college's education programs or activities at the time the complainant submits a complaint.

A complainant may file a formal complaint with the Title IX coordinator in person, by regular mail, or by email using the contact information specified above. No person may submit a formal complaint on the complainant's behalf.

In any case, including a case where a complainant elects not to file a formal complaint, the Title IX coordinator may file a formal complaint on behalf of the college if doing so is not clearly unreasonable. Such action will normally be taken in limited circumstances involving serious or repeated conduct or where the alleged perpetrator may pose a continuing threat to the college community. Factors the Title IX coordinator may consider include (but are not limited to):

- (a) was a weapon involved in the incident;
- (b) were multiple assailants involved in the incident;
- (c) is the accused a repeat offender;
- (d) does the incident create a risk of occurring again; and
- (e) is there a danger posed to the college.

If the complainant or the Title IX coordinator files a formal complaint, then the college will commence an investigation as specified below and proceed to adjudicate the matter through hearing. In all cases where a formal complaint is filed, the complainant will be treated as a party, irrespective of the party's level of participation.

In a case where the Title IX coordinator files a formal complaint, the Title IX coordinator will not act as a complainant or otherwise as a party for purposes of the investigation and adjudication processes.

The Title IX coordinator has the authority to consolidate formal complaints involving more than one complainant, or against more than one respondent, where the allegations of sexual harassment arise out of the same facts or circumstances.

Initial Assessment

Upon receipt of a report, the Title IX coordinator will conduct a preliminary assessment to determine:

Whether the conduct, as reported, falls or could fall within the scope of the policy;
Whether the conduct, as reported, constitutes or could constitute sexual harassment as defined in this policy.

If the Title IX coordinator determines that the conduct reported could not fall within the scope of the policy, and/or could not constitute sexual harassment, even if investigated, the Title Coordinator will close the matter and may notify the reporting party if doing so is consistent with the Family Educational Rights and Privacy Act ("FERPA"). The Title IX coordinator may refer the report to other college offices, as appropriate. If the Title IX coordinator determines more information is needed before making a determination as to whether the activity meets the jurisdiction or definitions of sexual harassment as outlined in this policy, the Title IX coordinator will contact the complainant for more information.

If the Title IX coordinator determines that the conduct reported could fall within the scope of the policy, and/or could constitute sexual harassment, if investigated, the Title IX coordinator will proceed to contact the complainant.

As part of the initial assessment, the Title IX coordinator may take investigative steps to determine the identity of the complainant, if such identity is not apparent from the report.

Contact the Complainant

Following receipt of notice of a complaint of an alleged violation of this policy, the Title IX coordinator will engage in an initial assessment. Receipt of notice does not constitute a formal complaint. The steps in an initial assessment can include:

- Whether a formal complaint has been filed or not, the Title IX coordinator reaches out to the complainant to offer confidential supportive measures, including but not limited to information on filing a formal complaint if one has not already been filed, the rights and responsibilities of a complainant throughout the grievance process, and the availability of informal resolution options.
- The Title IX coordinator seeks to determine if the person prefers a supportive and remedial response, an informal resolution option, or a formal investigation and grievance process and provides assistance in whichever avenue they wish to pursue.
- If a complainant does not wish to file a formal complaint and pursue a formal investigation and grievance process, or wishes to withdraw a formal complaint, the Title IX coordinator determines whether to initiate a complaint because a compelling threat to campus health and/or safety exists.

If a formal complaint has been filed, the Title IX coordinator is responsible for providing written notice to the respondent regarding all pertinent details of the complaint. In order to treat both parties equitably, the Title IX coordinator will meet with the respondent to provide advice for the following: availability of confidential supportive measures, availability of informal resolution options, assumption of non-responsibility throughout the grievance process, the rights and responsibilities of a respondent throughout the grievance process. Supportive measures may include: counseling, extensions of academic or other deadlines, course-related adjustments, modifications to work or class schedules, campus escort services, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of campus, and other similar measures. Supportive measures may also include mutual restrictions on contact between the parties implicated by a report.

Mandatory Dismissals

Complaints which do not meet the definition of sexual harassment included in this policy, or detail events which occurred outside of an educational program or activity within the United States, will be dismissed. However, such complaints may be subject to review and/or resolution under other college grievance policies in accordance with Title VII for employees and standards of student conduct. Both the complainant and respondent will be notified, in writing, of the dismissal decision by the Title IX coordinator.

Discretionary Dismissals

Complaints may be dismissed at the discretion of the Title IX coordinator if a complainant communicates in writing their desire to withdraw the formal complaint and allegations within, the respondent is no longer under the control or authority of the college, or in situations when gathering evidence sufficient to make a determination is not possible. Both the complainant and respondent will be notified, in writing, of the dismissal decision by the Title IX coordinator.

Informal Resolution

At any time after the parties are provided written notice of the formal complaint as specified above, and before the completion of any appeal, the parties may voluntarily consent, with the Title IX coordinator's approval, to engage in mediation, facilitated resolution, or other form of dispute resolution the goal of

which is to enter into a final resolution resolving the allegations raised in the formal complaint by agreement of the parties.

An informal resolution to a formal complaint of sexual harassment can be reached when the complainant and respondent are equally and voluntarily agreeable to reaching a resolution without a full investigation or live hearing. The option of resolving a formal complaint through informal resolution will be offered to both parties by the Title IX coordinator at the initial assessment meetings. However, the decision to stop formal proceedings and engage in an informal resolution may be made at any time during the grievance process, with the voluntary, written consent of both parties. Likewise, the parties have the right to withdraw from an informal resolution process and resume the Title IX grievance process at any time with respect to the formal complaint.

The specific manner of any informal resolution process will be determined by the parties and the Title IX coordinator, in consultation together. Prior to commencing the informal resolution process agreed upon, the Title IX coordinator will transmit a written notice to the parties that:

- Describes the parameters and requirements of the informal resolution process to be utilized;
- Identifies the individual responsible for facilitating the informal resolution (who may be the Title IX coordinator, another college official, or a suitable third-party);
- Explains the effect of participating in informal resolution and/or reaching a final resolution will have on a party's ability to resume the investigation and adjudication of the allegations at issue in the formal complaint; and
- Explains any other consequence resulting from participation in the informal resolution process, including a description of records that will be generated, maintained, and/or shared.

Informal resolution can include but is not limited to the following three approaches:

- When the parties agree to resolve the matter through an alternate resolution mechanism (including mediation, restorative practices, etc.);
- When the respondent accepts responsibility for violating policy, and desires to accept a sanction and end the resolution process; or
- When the Title IX coordinator resolves the matter informally by providing supportive measures to remedy the situation.

Participation in an informal resolution process in lieu of the full investigation and live hearing associated with the Title IX grievance process shall not be a condition of enrollment or continuing enrollment, employment or continuing employment, or waiver of the right to an investigation and live hearing of the formal complaint.

An informal resolution process is not allowed in regards to formal complaints of sexual harassment of a student by an employee and is not appropriate in all cases.

Assignment of Investigator(s)

At the filing of a formal complaint, a reasonably prompt, fair and impartial investigation will commence. This process may be paused while informal resolution options are pursued. The Title IX coordinator will assign investigators who are free from conflicts of interest, or bias for or against either party. The investigators may be members of the college community, or the duties may be delegated to outside personnel. The number of investigators assigned is at the discretion of the Title IX coordinator. The

investigators will meet with both parties individually, to engage in the objective collection of relevant evidence. Both parties are entitled to the identification of witnesses and submission of inculpatory and exculpatory evidence.

The Title IX coordinator will vet the assigned Investigator(s) to ensure impartiality by ensuring there are no actual or apparent conflicts of interest or disqualifying biases. The parties may, at any time during the resolution process, raise a concern regarding bias or conflict of interest of the investigators, and the Title IX coordinator will determine whether the concern is reasonable and supportable. If bias or a conflict of interest is found to have emerged, the Title IX coordinator will reassign an investigator and any impact of the bias or conflict will be remedied accordingly.

The burden of proof and the burden for gathering sufficient evidence to reach a determination of responsibility for sexual harassment rests with the college.

The college operates with the presumption that the respondent is not responsible for the reported misconduct unless and until the respondent is determined to be responsible for a policy violation by a preponderance of the evidence as defined below.

Investigation Timeline

Investigations are completed expeditiously, though some investigations may take weeks or even months, depending on the nature, extent, and complexity of the allegations, availability of witnesses, police involvement, etc. Although the length of each investigation may vary depending on the totality of the circumstances, the college strives to complete each investigation within thirty (30) to forty-five (45) days of the transmittal of the written notice of formal complaint.

The college will make a good faith effort to complete investigations as promptly as circumstances permit and will communicate regularly with the parties to update them on any delays.

The college may undertake a short delay in its investigation (several days to a few weeks) if circumstances require. Such circumstances include but are not limited to: a request from law enforcement to temporarily delay the investigation, the need for language assistance if an interpreter is needed, the absence of parties and/or witnesses, and/or accommodations for disabilities or health conditions.

The college will communicate in writing the anticipated duration of the delay and reason to the parties and provide the parties with status updates if necessary. The college will promptly resume its investigation and resolution process as soon as feasible. During such a delay, the college will implement supportive measures as deemed appropriate.

The college action(s) are not typically altered or precluded on the grounds that civil or criminal charges involving the underlying incident(s) have been filed or that criminal charges have been dismissed or reduced.

The investigation is the party's opportunity to present testimonial and other evidence that the party believes is relevant to resolution of the allegations in the formal complaint. During the investigation, the investigator will provide an equal opportunity for the parties to be interviewed, to present witnesses (including fact and expert witnesses), and to present other inculpatory and exculpatory evidence. Notwithstanding the foregoing, the investigator retains discretion to limit the number of witness interviews the investigator conducts if the investigator finds that testimony would be unreasonably cumulative, if the witnesses are offered solely as character references and do not have information relevant to the allegations

at issue, or if the witnesses are offered to render testimony that is categorically inadmissible, such as testimony concerning sexual history of the complainant. The investigator will not restrict the ability of the parties to gather and present relevant evidence on their own.

The investigator will take reasonable steps to ensure the investigation is documented. Interviews of the parties and witnesses may be documented by the investigator's notes, audio recorded, video recorded, or transcribed.

Grievance Process Advisors

Both parties have equal rights to engage the assistance of a grievance process advisor of their choosing during any meeting or proceeding including the investigation and live hearing. If either party is not able to identify an advisor of their choice, a trained Title IX grievance process advisor will be appointed by the Title IX coordinator to assist them during the live hearing at no cost to the individual. The presence of such a grievance process advisor, either self-selected or college-appointed, is required on behalf of both parties to conduct cross examination during the live hearing. At no time will a party be allowed to conduct cross examination of witnesses or the other party personally.

The college places no restriction on the choice or presence of a self-selected grievance process advisor for either party. However, all individuals serving as an advisor (either self-selected or college-appointed) will be required to adhere to rules of decorum as outlined and communicated by the Title IX coordinator. Failure to comply with the rules of decorum could result in delays in the grievance process or removal from the role of advisor.

Except for the questioning of witnesses during the hearing specified below, the advisor will play a passive role and is not permitted to communicate on behalf of a party, insist that communication flow through the advisor, or communicate with the college about the matter without the party being included in the communication. In the event a party's advisor of choice engages in material violation of the parameters specified in this policy, the college may preclude the advisor from further participation, in which case the party may select a new advisor of their choice.

Review of Evidence and Comment Period

At the conclusion of the evidence-gathering phase of the investigation, but prior to the completion of the investigation report, the investigating officer will transmit to each party and their advisor, in either electronic or hard copy form, all evidence obtained as part of the investigation that is directly related to the allegations raised in the formal complaint, including evidence the college may choose not to rely on at any hearing and inculpatory or exculpatory evidence whether obtained from a party or some other source.

Thereafter, the parties will have ten (10) days in which to submit to the investigator a written response, which the investigator will consider prior to completing the investigation report.

The parties and their advisors are permitted to review the evidence solely for the purposes of this grievance process and may not photograph or disseminate the evidence to the public.

Review of Investigation Report

After the period for the parties to provide any written response has expired, the investigator will complete a written investigation report that fairly summarizes the various steps taken during the investigation,

summarizes the relevant evidence collected, lists material facts on which the parties agree, and lists material facts on which the parties do not agree. When the investigation report is complete, the investigator will transmit a copy to the Title IX coordinator. The Title IX coordinator will transmit the investigation report to each party and their advisor, in either electronic or hard copy form.

Live Hearing and Cross Examination

The default process for adjudicating formal complaints is the hearing process outlined in this section. The hearing process will be used to adjudicate all formal complaints unless both parties timely consent to administrative adjudication or informal resolution.

At the conclusion of the review of the investigation report, a live hearing will be conducted by a hearing officer(s) in order to reach a final determination of responsibility for the allegations in the formal complaint at the conclusion of the hearing process. The hearing officer may be a contractor or a member of the professional/administrative staff of the college, and will participate in ongoing training with regards to their role in the grievance process. The Title IX coordinator will ensure that the hearing officer is provided a copy of the investigation report and a copy of all evidence transmitted to the parties by the investigator.

Hearing Notice and Response to the Investigation Report

The hearing officer will transmit notice to the parties setting a deadline for parties to submit any written response to the investigation report and setting a date for the pre-hearing conference and a date of the hearing.

A party's written response to the investigation report must include:

- To the extent the party disagrees with the investigation report, any argument or commentary regarding such disagreement;
- Any argument that evidence should be categorically excluded from consideration at the hearing based on privilege, relevancy, the prohibition on the use of sexual history, or for any other reason;
- A list of any witnesses that the party contends should be requested to attend the hearing pursuant to an attendance notice issued by the hearing officer;
- A list of any witnesses that the party intends to bring to the hearing without an attendance notice issued by the hearing officer;
- Any objection that the party has to the college's hearing procedures;
- Any request that the parties be separated physically during the pre-hearing meeting and/or hearing;
- Any other accommodations that the party seeks with respect to the pre-hearing meeting and/or hearing;
- The name and contact information of the advisor who will accompany the party at the pre-hearing meeting and hearing;
- If the party does not have an advisor who will accompany the party at the hearing, a request that the college provide an advisor for purposes of conducting questioning.

A party's written response to the investigation report may also include:

- Argument regarding whether any of the allegations in the formal complaint are supported by a preponderance of the evidence; and
- Argument regarding whether any of the allegations in the formal complaint constitute sexual harassment.

The parties will be given a list of the name(s) of hearing officer(s) at least five (5) business days in advance

of the hearing. All objections to any hearing officer(s) must be raised in writing, detailing the rationale for the objection, and must be submitted to the Title IX coordinator as soon as possible and no later than one day prior to the hearing. Hearing officers will only be removed if the Title IX coordinator concludes that their bias or conflict of interest precludes an impartial hearing of the allegation(s).

The hearing officer may convene a pre-hearing meeting(s) with the parties and/or their advisors to invite them to submit the questions or topics they (the parties and/or their advisors) wish to ask or discuss at the hearing, so that the hearing officer can rule on their relevance ahead of time to provide recommendations for more appropriate phrasing. The topics that will be discussed by the hearing officer may include but are not limited to:

- hearing procedures with the parties;
- address matters raised in the parties' written responses to the investigation report, as the hearing officer deems appropriate;
- discuss whether any stipulations may be made to expedite the hearing;
- discuss the witnesses the parties have requested be served with notices of attendance and/or witnesses the parties plan to bring to the hearing without a notice of attendance;
- and resolve any other matters that the hearing officer determines, in the hearing officer's discretion, should be resolved before the hearing.

The pre-hearing meeting will be conducted live, with simultaneous and contemporaneous participation by the parties and their advisors. By default, the pre-hearing meeting will be conducted with the hearing officer, the parties, the advisors, and other necessary college personnel together in the same physical location. However, upon request of either party, the parties will be separated into different rooms with technology enabling the parties to participate simultaneously and contemporaneously by video and audio. However, this advance review opportunity does not preclude the advisors from asking at the hearing for a reconsideration based on any new information or testimony offered at the hearing. It further does not prohibit advisors from asking previously undiscussed but relevant questions. The hearing officer must document and share their rationale for any exclusion of questioning or evidence at this pre-hearing meeting. At the pre-hearing meeting, the parties may come to an agreement in writing on the relevance of any evidence at the hearing or the need to hear relevant witnesses live. If the parties agree, statements of witnesses may be allowed without the need for live testimony from the witness. No evidence will be considered at the live hearing which was not introduced previously during the investigation and summarized in the investigative report for review.

After the pre-hearing meeting, the hearing officer will transmit notices of attendance to any college employee (including administrator, faculty, or staff) or student whose attendance is requested at the hearing as a witness. The notice will advise the subject of the specified date and time of the hearing and advise the subject to contact the hearing officer immediately if there is a material and unavoidable conflict.

The subject of an attendance notice should notify any manager, faculty member, coach, or other supervisor, as necessary, if attendance at the hearing will conflict with job duties, classes, or other obligations. All such managers, faculty members, coaches, and other supervisors are required to excuse the subject of the obligation, or provide some other accommodation, so that the subject may attend the hearing as specified in the notice.

The college will not issue a notice of attendance to any witness who is not an employee or a student.

The live hearing may be conducted in one room at any of the college's campuses or centers, or may be conducted through video conferencing technology when the presence of the complainant and respondent

in the same room is not reasonable, feasible, or if such arrangements are requested by either party. Live hearings conducted virtually must ensure that all parties can simultaneously see and hear each other. Disability-related accommodations relating to participation in a live hearing will be coordinated with the Disability Support Office. An audio or audiovisual recording of the live hearing will be made available equally to both parties.

While the hearing procedures and rulings from the hearing officer will govern the particulars of the hearing, each hearing will include, at a minimum:

- Opportunity for each party to address the hearing officer directly and to respond to questions posed by the hearing officer;
- Opportunity for each party's advisor to ask directly, orally, and in real time, relevant questions, and follow up questions, of the other party and any witnesses, including questions that support or challenge credibility;
- Opportunity for each party to raise contemporaneous objections to testimonial or non-testimonial evidence and to have such objections ruled on by the hearing officer and a reason for the ruling provided;
- Opportunity for each party to submit evidence that the party did not present during the investigation due to mistake, inadvertence, surprise, or excusable neglect;
- Opportunity for each party to make a brief closing argument.

During the live hearing, each advisor will ask relevant questions directly to the other party and/or witnesses, including follow-up questions and those challenging credibility. Any question asked that was not previously approved by the hearing officer during the pre-hearing meeting will be considered for its relevance by the hearing officer prior to the witness or party answering said question. Any question the hearing officer finds not to be relevant will not require an answer from the party or witness being questioned and the hearing officer is to provide their rationale for withdrawing the question in writing.

An individual's refusal to submit to cross-examination in part or in whole does not preclude the hearing officer from considering or otherwise relying upon prior or subsequent statements from that individual. In the event that any party or witness refuses to attend the hearing or attends but refuses to submit to questioning by the parties' advisors, the hearing officer will evaluate how to consider prior statements of that party or witness, as the case may be.

The hearing officer may consider statements of persons who were not present at the hearing, or persons who were present but not subject to cross examination, so long as the statement are deemed reliable and relevant by the hearing officer and not otherwise subject to exclusion under this policy.

Such statements may include, but are not limited to, statements in police reports or other official reports, medical records, court records and filings, investigation notes of interviews, investigation transcripts, emails, written statements, affidavits, text messages, and social media postings.

The hearing officer will not draw an inference about the determination regarding responsibility based solely on a party or witness's absence from the live hearing and/or refusal to submit to questioning.

Treatment Records and Other Privileged Information

During the investigation and adjudication processes, the investigator and adjudicator, as the case may be, are not permitted to access, consider, disclose, permit questioning concerning, or otherwise use, unless the

college has obtained the party's voluntary, written consent to do so for the purposes of the investigation and adjudication process:

- A party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party; or
- Information or records protected from disclosure by any other legally-recognized privilege, such as the attorney client privilege;

Notwithstanding the foregoing, the investigator and/or adjudicator, as the case may be, may consider any such records or information otherwise covered by this section if the party holding the privilege affirmatively discloses the records or information to support their allegation or defense.

Sexual History

During the investigation and adjudication processes, questioning regarding a complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. Notwithstanding the foregoing, a complainant who affirmatively uses information otherwise considered irrelevant for the purpose of supporting the complainant's allegations, may be deemed to have waived the protections of this section.

Final Determination and Remedies

After a thorough examination of the evidence and after the hearing is complete, the hearing officer will utilize the preponderance of the evidence burden of proof standard in making a final determination as to whether it is more likely than not that a violation of this policy occurred as alleged in the formal complaint. The hearing officer will objectively evaluate all relevant evidence collected during the investigation, including both inculpatory and exculpatory evidence, together with testimony and non-testimony evidence received at the hearing, and ensure that any credibility determinations made are not based on a person's status as a complainant, respondent, or witness. The hearing officer will take care to exclude from consideration any evidence that was ruled inadmissible at the pre-hearing conference or during the hearing.

The hearing officer is responsible for drafting a final determination letter, outlining the rationale for their decision. The letter will be distributed simultaneously to both parties by the Title IX coordinator. In addition to details relating to the allegations constituting sexual harassment, procedural steps, findings of fact, conclusions and rationale, the final determination letter will include the range of sanctions to be decided upon and administered by the proper disciplinary office (i.e. if the respondent is a student, the dean of students will decide disciplinary sanction(s) while the chief human resources officer will decide and administer employment sanctions). It is the responsibility of the appropriate campus or center administrator to enforce disciplinary sanctions and the responsibility of the Title IX coordinator to provide effective implementation of any remedies as needed.

Factors considered when determining a sanction/responsive action may include, but are not limited to:

- The nature, severity of, and circumstances surrounding the violation(s)

- The respondent's disciplinary history
- Previous allegations or allegations involving similar conduct
- The need for sanctions/responsive actions to bring an end to the discrimination, harassment, and/or retaliation
- The need for sanctions/responsive actions to prevent the future recurrence of discrimination, harassment, and/or retaliation
- The need to remedy the effects of the discrimination, harassment, and/or retaliation on the complainant and the college community
- The impact on the parties
- Any other information deemed relevant by the decision-maker(s)

To ensure the safety of either party the sanctions will be enforced as soon as is feasible. However, all parties will have the ability to appeal, and no sanctions will infringe on either party's ability to appeal. The sanctions described in this policy are not exclusive of, and may be in addition to, other actions taken or sanctions imposed by external authorities.

Possible Student Sanctions

The following are the customary sanctions that may be imposed upon students or organizations singly or in combination:

- **Warning:** A formal statement that the conduct was unacceptable and a warning that further violation of any college policy, procedure, or directive may result in more severe sanctions/responsive actions.
- **Required Counseling:** A mandate to meet with and engage in either the college -sponsored or external counseling to better comprehend the misconduct and its effects.
- **Probation:** A written reprimand for violation of institutional policy, providing for more severe disciplinary sanctions in the event that the student or organization is found in violation of any institutional policy, procedure, or directive within a specified period of time. Terms of the probation will be articulated and may include denial of specified social privileges, exclusion from co-curricular activities, exclusion from designated areas of campus, no-contact orders, and/or other measures deemed appropriate.
- **Suspension:** Termination of student status for a definite period of time not to exceed two years and/or until specific criteria are met. Students who return from suspension are automatically placed on probation through the remainder of their tenure as a student at the college.
- **Expulsion:** Permanent termination of student status and revocation of rights to be on campus for any reason or to attend the college-sponsored events.
- **Withholding Diploma:** the college may withhold a student's diploma for a specified period of time and/or deny a student participation in commencement activities if the student has an allegation pending or as a sanction if the student is found responsible for an alleged violation.
- **Revocation of Degree:** the college reserves the right to revoke a degree previously awarded from the college for fraud, misrepresentation, and/or other violation of college policies, procedures, or directives in obtaining the degree, or for other serious violations committed by a student prior to graduation.
- **Organizational sanctions:** Deactivation, loss of recognition, loss of some or all privileges (including the college registration) for a specified period of time.
- **Other Actions:** In addition to or in place of the above sanctions, the college may assign any other sanctions as deemed appropriate.

Possible Employee Sanctions

Responsive actions for an employee who has engaged in harassment, discrimination, and/or retaliation include:

- Warning – Verbal or Written
- Performance Improvement/Management Process
- Required Counseling
- Required Training or Education
- Probation
- Loss of Annual Pay Increase
- Loss of Oversight or Supervisory Responsibility
- Demotion
- Suspension with pay
- Suspension without pay
- Termination
- Other Actions: In addition to or in place of the above sanctions, the college may assign any other sanctions as deemed appropriate.

Appeals of Final Determinations and Dismissals

All appeals of findings of responsibility, non-responsibility, disciplinary sanctions, and dismissal of complaints involving student respondents are handled in accordance with student discipline and appeals detailed in policy 5.16. All appeals involving employee respondents are to be made pursuant to appropriate employee disciplinary policy. Appeals may be made on the following grounds only:

- New information that alters the finding and was not reasonably available at the time of issuance of the written decision;
- A procedural error that unfairly and materially affected the outcome of the investigation;
- The sanction imposed is excessive or disproportionate to the offense(s); and/or
- Conflict of interest or bias on the part of the person(s) who participates in the preparation and/or completion of the written decision

Emergency Removals

In limited situations, the Title IX coordinator may remove a respondent from the college on an emergency basis because they pose an immediate threat to the college community, or cannot otherwise safely participate in an educational program or activity while the sexual harassment grievance process is being conducted. In cooperation with the college's Behavioral Intervention Team (BIT), an individualized risk/threat assessment will be conducted to determine whether an immediate physical threat to the health or safety of the respondent or the college community arising from the formal sexual harassment complaint would justify removal from campus. When the determination for an emergency removal is reached, the Title IX coordinator must provide the respondent with written notice of the decision and an opportunity for an expedited appeal of the determination.

A non-student employee may be removed from campus for any part, or the full duration of, the Title IX grievance process through administrative leave in cooperation with the chief human resources officer. No risk/threat assessment is required in these circumstances.

Retaliation

No person having made a report or formal complaint, participated in or refused participation in any part of the Title IX grievance process should be subjected to intimidation, threats, coercion, or discrimination for the purpose of interfering with any right or privilege secured by Title IX. Such conduct is strictly prohibited and will be subject to review and/or resolution under other college policies.

Exercising rights protected under the First Amendment alone does not constitute retaliation. Complaints of retaliation arising from a Title IX grievance process may be reported directly to the Title IX coordinator or through the college's secure web-based reporting platform.

Grievance Process Personnel Training

The Title IX coordinator is responsible for ensuring ongoing training for all college personnel or contractors associated with the Title IX grievance process, including investigators, advisors, hearing officers and appellate officers. Such training may be conducted internally or through organizations and agencies outside the college, and includes all policies and practices associated with the college's Title IX grievance process, best practices in investigative and hearing panel processes, determining credibility and relevance, impartiality and implicit bias, updated guidance relating to Title IX, among other topics.

The college will retain all materials used to train Title IX grievance process personnel for no less than seven years and provide those materials on its website.

Retention of Title IX Grievance Process Files

The college will maintain electronic copies of the following documents/records relating to formal complaints of sexual harassment for no less than seven (7) years:

- Investigation reports and evidence gathered;
- Audio or audiovisual recordings of live hearings;
- Final determination letters and disciplinary sanctions imposed on the respondent;
- Remedies provided to the complainant in order to restore or preserve equal access to the college education program or activity;
- Any appeal and the determination;
- Informal resolutions agreements;
- Supportive measures offered in response to a report or formal complaint of sexual harassment;
- Written basis for the conclusion that the college was not deliberately indifferent in its response to reports or formal complaints of sexual harassment.
